### TWO POPULAR MAGAZINES.

Brilliant Novelties for 1879.

ELLA FARMAN, Editor.  
D. LOTHROP & Co., Publishers.

#### WIDE AWAKE.

The Illustrated Magazine for Young  
Folks.

\$2 00 A YEAR.

It is conceded on all sides that Messrs.  
D. Lothrop & Co. have splendidly ac-  
complished what they set their hearts  
upon a few years ago, viz: to make a  
magazine absolutely pure in its moral  
influence, unrivalled in literary merit,  
beautiful artistically, and then to furnish  
it at so low a price that the people could  
afford to take it.

#### BABYLAND.

ONLY FIFTY CENTS A YEAR.

The Only Magazine in the World for  
Babies!

Dainty stories and pictures, and  
rhymes of baby life! Eight pages, thick  
amber paper, large print, words divided  
into syllables.

Just what your baby wants.

### LIME! LIME!

### FIRST ARRIVAL

## VEGETINE

Purifies the Blood. Renovates and In-  
vigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alternate, Tonic, Solvent, and Di-  
uretic.

VEGETINE is made exclusively from the  
juices of carefully selected barks, roots, and  
herbs, and so strongly concentrated that it will  
effectually eradicate from the system every  
taint of SCROFULA, SCROFULOUS HUMOR,  
TUMORS, CANCER, CANCEROUS HUMOR,  
Erysipelas, Salt-Rheum, Canker,  
Faintness at the Stomach, and all dis-  
eases arising from impure food. SCLETICA,  
INFLAMMATORY, and CHRONIC RHEUMA-  
TISM, NEURALGIA, GOUT, and SPINAL  
COMPLAINTS, can only be effectually cured  
through the blood.

For Ulcers, and Eruptive Diseases of  
the Skin, Pustules, Pimples, Blisters,  
Bolls, Tetter, Scaldhead, and Ring-  
worm, Vegetine has never failed to effect a  
permanent cure.

For pains in the Back, Kidney Complaints,  
Dropsy, Female Weakness, Leucorrhoea, arising  
from internal ulceration and uterine diseases,  
and general Debility, Vegetine acts directly up-  
on the causes of these complaints. It invigorates  
and strengthens the whole system, acts upon the  
secretory organs, allays inflammation, cures ulcer-  
ation, and regulates the bowels.

For Catarrh, Dyspepsia, Habitual Costiveness,  
Palpitation of the heart, Headache, Piles,  
Nervousness, and General Prostration of the  
Nervous System, no medicine has ever given  
such general satisfaction as the Vegetine. It  
purifies the blood, cleanses all the organs, and  
possesses a controlling power over the nervous  
system.

The remarkable cures effected by Vegetine,  
have induced many physicians and apothecaries  
whom we know to prescribe and use it in their  
own families.

In fact Vegetine is the best remedy yet dis-  
covered for the above diseases, and is the only  
reliable BLOOD PURIFIER yet placed be-  
fore the public.

### VEGETINE.

SHACKAMON SQUARE PHARMACY,  
124 Beach St., above Laurel,  
Philadelphia, Penn., June 12, 1877.)

Mr H R Stegess,

Dear Sir,—Having during the past five years  
sold your Vegetine, which has been praised by  
my customers highly for the various diseases  
requiring a blood purifier, and as I have heard  
very favorable reports of its use, I cordially en-  
dorse it as a good remedy, and believe it to be  
what you claim it is; viz. "The great blood pur-  
ifier" of the day.

Respectfully yours,  
J. W. ABEL M. D., Druggist.

PHYSICIANS SAY IT.—Vegetine gives an equal  
circulation of the blood. All physicians will  
agree that there is scarcely a disease but that  
could a most instantly be disposed of if pure  
blood could be circulated through the parts  
affected. Now this is the way in which Vegetine  
performs its wonderful cures. Vegetine is  
exclusively a vegetable compound, made from  
roots, herbs, and barks.

### VEGETINE.

NEWPORT, KY.

Mr H R Stegess,—

DEAR SIR.—I sold your Vegetine for a number  
of years, and find it give perfect satisfaction to

## Poetry.

Shall We Find Them at the

BY J. E. BANKIN, D. D., IN "SUN-  
TIMES."

Will they meet us, cheer and greet  
Those we've loved, who've gone  
Shall we find them at the portals,  
Find our beautiful immortals,  
When we reach the radiant shore

Hearts are broken for some token  
That they live, and love us yet.  
And we ask, Can those who've left  
Of love's look and tone bereft us,  
Though in heaven, can they fo

And we often, as days soften,  
And comes out the evening star,  
Looking westward, sit and wonder,  
Whether, when so far assunder,  
They still think how dear they at

Past yon portal our immortals,  
Those who walk with Him in whi  
Do they, mid their bliss, recall us?  
Know they what event's befall us?  
Will our coming wake delight?

They will meet us, cheer and greet  
Those we've loved, who've gone  
We shall find them at the portals,  
Find our beautiful immortals,  
When we reach that radiant shore

THE

## Curse of Clifton

BY MRS. E. D. E. N. SOUTHWICK

(Continued from last week)

The next day Major Clifton  
to White Cliffs to pay his re-  
Georgia.

The beauty received him with  
strained joy; but in the cor-  
that ensued, reverted to what  
"The intrigues of that low be-  
couverer, Miss Kavanagh," as  
if he had observed a great chan-  
Clifton, ascribable entirely to  
fluence?

It gave Major Clifton great  
hear Catherine traduced in this  
but he believed Mrs. Georg  
perfectly sincere in her opin-  
only the victim of a mistake.  
the lady so, adding—

"I am about to give Miss  
the highest proof of confidence  
being can give another, I am  
take her for my life's bosom  
We shall be married in five days  
Had a bullet sped through ti  
she could not have given a mor-  
ed bound. Then she struck bo-  
to her temples, started has  
across the floor, mangled again a

THE

Curse of Clif

BY MRS. E. D. E. N. SOUTHW.

(Continued from last we

The next day Major Clifton  
to White Cliffs to pay his r  
Georgia.

The beauty received him w  
strained joy; but in the co  
that ensued, reverted to wha  
"The intrigues of that low b  
couvener, Miss Kavanagh," as  
if he had observed a great chan  
Clifton, ascribable entirely to  
fluence ?

It gave Major Clifton great  
hear Catherine traduced in thi  
but he believed Mrs. Georg  
perfectly sincere in her opin  
only the victim of a mistake.  
the lady so, adding—

"I am about to give Miss  
the highest proof of confidence  
being can give another. I am  
take her for my life's boon  
We shall be married in live da  
Had a bullet sped through t  
she could not have given a mor  
ed bound. Then she struck bo  
to her temples, started has  
across the floor, paused again  
tracted, and suddenly cried out

"You shall not do it ! By  
you shall not do it ! You ne  
shall become the dupe of that  
I have entered the lists with  
mean, that to save you, I have  
and before I leave them, I w  
her false and treacherous. C  
the right ?

Major Clifton gazed upon he  
der. The strong emotion that  
exhibited, imposed upon him,  
was no doubting its reality;  
from suspecting its cause, an  
ed passion for himself, he a  
solely to her strong conviction  
sine's unworthiness, and to her  
sted regard for his own welf  
when she came and threw  
the sofa beside him, and besot  
all the eloquence that passion  
demon could lend her, that  
pause and not hurry on to his  
confidence in Catherine's inte  
shaken to the foundation. An  
the end of an hour he rode  
reached Hardbargain as misers  
doubt of one beloved can mal  
If love is the Divine power  
figuring its objects until faults  
cellencies, suspicion possesses  
monic faculty of deforming i  
until virtues seem vices, and  
influence the highest and best  
the maiden, her intellect, vikt  
graces were turned against  
talent seemed intriguing art ;  
ness and humility became me  
symphany, her piety, by  
and her girlish shyness the si  
serve of conscious guilt.

It was well that on his retu  
Clifton only in his mother's  
where deep regard for the  
strained him into something  
bearance ; though even then h  
manner excited some uneasie  
bosoms of the two ladies. Wh  
rime left the room to order di  
conversation that ensue  
strengthen his newly revived

## VEGETINE

Purifies the Blood. Renovates and Invigorates the Whole System.

ITS MEDICINAL PROPERTIES ARE

Alternate, Tonic, Solvent, and Diuretic.

VEGETINE is made exclusively from the juices of carefully selected barks, roots, and herbs, and so strongly concentrated that it will effectually eradicate from the system every taint of SCROFULA, SYPHILITIC HUMOR, TUBERCLES, CANCER, CANCEROUS HUMOR, ERYSIPELAS, SALT-RHEUM, CANKER, FAINTNESS AT THE STOMACH, and all diseases arising from impure food. SCIATICA, INFLAMMATORY, and CHRONIC RHEUMATISM, NEURALGIA, GOUT, and SPINAL COMPLAINTS, can only be effectually cured through the blood.

For Ulcers, and Eruptive Diseases of the Skin, Pustules, Pimples, Blotches, Boils, Tetter, Scaldhead, and Ringworm, Vegetine has never failed to effect a permanent cure.

For pains in the Back, Kidney Complaints, Dropsy, Female Weakness, Leucorrhoea, arising from internal ulceration, and uterine diseases, and general Debility, Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretory organs, allays inflammation, cures ulceration, and regulates the bowels.

For Catarrh, Dyspepsia, Habitual Costiveness, Palpitation of the heart, Headache, Piles, Nervousness, and General Irritation of the Nervous System, no medicine has ever given such general satisfaction as the Vegetine. It purifies the blood, cleanses all the organs, and possesses a controlling power over the nervous system.

The remarkable cures effected by Vegetine, have induced many physicians and apothecaries whom we know to prescribe and use it in their own families.

In fact Vegetine is the best remedy yet discovered for the above diseases, and is the only reliable BLOOD PURIFIER yet placed before the public.

## VEGETINE.

SHACKANAYON SQUARE PHARMACY,  
124 Bench St., above Laurel,  
Philadelphia Penn., June 12, 1877.  
Mr H R Stearns.

Dear Sir,—Having during the past five years sold your Vegetine, which has been praised by my customers highly for the various diseases requiring a blood purifier, and as I have heard very favorable reports of its use, I cordially endorse it as a good remedy, and believe it to be what you claim it is, viz: "The great blood purifier" of the day.

Respectfully yours,  
J. W. ABEL M. D., Druggist.

PHYSICIANS SAY IT.—Vegetine gives an equal circulation of the blood. All physicians will agree that there is scarcely a disease but that could a most instantly be disposed of if pure blood could be circulated through the parts affected. Now this is the way in which Vegetine performs its wonderful cures. Vegetine is exclusively a vegetable compound, made from roots, herbs, and barks.

## VEGETINE.

NEWPORT, KY.

Mr H R Stearns.—  
DEAR SIR.—I sold your Vegetine for a number of years, and find it give perfect satisfaction to my customers.

## Poetry.

Shall We Find Them at the Portals?

BY J. E. BANKIN, D. D., IN "SUNDAY-SCHOOL TIMES."

Will they meet us, cheer and greet us,  
Those we've loved, who've gone before?  
Shall we find them at the portals,  
Find our beautiful immortals,  
When we reach the radiant shore?

Hearts are broken for some token  
That they live, and love us yet,  
And we ask, Can those who've left us,  
Of love's look and tone bereft us,  
Though in heaven, can they forget?

And we often, as days soften,  
And comes out the evening star,  
Looking westward, sit and wonder,  
Whether, when so far assunder,  
They still think how dear they are!

Past you portal our immortals,  
Those who walk with Him in white,  
Do they, mid their bliss, recall us,  
Know they what event's befall us?  
Will our coming wake delight?

They will meet us, cheer and greet us,  
Those we've loved, who've gone before;  
We shall find them at the portals,  
Find our beautiful immortals,  
When we reach that radiant shore.

## Our Story.

THE

## Curse of Clifton.

BY MRS. E. D. E. N. SOUTHWORTH.

(Continued from last week.)

The next day Major Clifton rode over to White Cliffs to pay his respects to Georgia.

The beauty received him with unrestrained joy; but in the conversation that ensued, reverted to what she called "The intrigues of that low born man-cruver, Miss Kavanagh," asking him if he had observed a great change in Mrs. Clifton, ascribable entirely to her influence?

It gave Major Clifton great pain to hear Catherine traduced in this manner, but he believed Mrs. Georgia to be perfectly sincere in her opinion, and only the victim of a mistake. He told the lady so, adding—

"I am about to give Miss Kavanagh the highest proof of confidence that one being can give another. I am about to take her for my life's bosom friend. We shall be married in five days."

Had a bullet sped through the heart, she could not have given a more agonized bound. Then she struck both hands to her temples, started hastily half across the floor, paused again as if dis-

"Archer, there is. Besides, my mind will be easier when it is done. And Archer, lastly—bring with you a clergyman. I wish to receive the Holy Communion."

Major Clifton made no farther objection, but left the room to order his horse; and in less than half an hour he found himself on his way to L—. Mrs. Clifton summoned Kate. When the girl entered, she found the lady on the verge of fainting from over-exertion and extreme weakness. Catherine grew pale with sudden fear, and her hands trembled as she poured out and administered a restorative. Somewhat revived by the cordial, Mrs. Clifton said—

"Kate, write two notes, one to Mrs. Georgia Clifton, and one to your brother Carl, asking each of them to come here this evening to witness a deed—or rather two of them, my dear Kate—the signing of the last will and testament, and the solemnization of your marriage—for both must be hastened, Kate. My dear child, take your pen and write at once."

Deeply troubled, extremely agitated, yet struggling to govern her feelings, Catherine found the writing materials and penned the two notes; but when she had finished them, in the abstraction of her great grief, she misdirected them—and sent the note intended for Mrs. Georgia to Carl Kavanagh, and that intended for Carl to Mrs. Georgia. When she had despatched these notes by different messengers and returned to the parlor, Mrs. Clifton said—

"Call Henry, my dear Kate, and let her assist you in getting me up stairs. It has come at last, Kate."

Almost dismayed by sorrow, Catherine rung the bell that brought the servants into the room. And between them they raised the lady to her feet. Mrs. Clifton took a long look around the room, as though she were taking a last leave of every dear familiar object in it; and then suffered herself to be supported up to her chamber.

Mrs. Georgia Clifton was pacing her chamber-floor, in all the distraction of excited evil passions, racking her brain for an expedient to ruin her rival and break off the impending marriage, when the "spirits that tend on mortal thoughts," furnished her with one. A messenger entered and handed her a sealed envelope, directed in the handwriting of Catherine Kavanagh. She opened it in surprise, curiosity, and even in some degree of vague, guilty fear, and found within the misdirected note of Kate to Carl. It read simply as follows:

"DEAR CARL:—  
"Mrs. Clifton is almost dying. She says you must come to the house this afternoon, at four o'clock, to meet a lawyer and a clergyman, and with Mrs. Georgia Clifton, to witness the signing of her last will, and also my marriage. Do not keep her waiting. "CATHERINE."

Georgia to come to see me this afternoon, they have not yet arrived. Please go and send again for them."

Archer Clifton bent and kissed his mother's forehead, and went down stairs. In the hall he saw Carl Kavanagh, hat in hand, waiting.

Carl immediately advanced and said—

"Ah! Major Clifton, I am waiting here to see my sister, to return to her this note, that she has sent me by mistake. I think—perhaps you can explain it." And he handed to Archer Clifton the mis-sent note of Catherine to Georgia.

Major Clifton understood the mistake at once, and retaining the note replied—

"Catherine wrote two notes, summoning yourself and Mrs. Georgia Clifton to Hardbaryain, this afternoon, to witness the signature of a certain document. She placed them in envelopes, and in her haste misdirected them—that is all. Pray remain here, while I ride over home, and bring Mrs. Georgia."

Carl Kavanagh sat down in the hall, and Major Clifton mounted a fresh horse, and galloped over to White Cliffs. Dismounting at the gate, he threw the reins to a servant and entering the house, sent a message to Mrs. Georgia.

The servant returned, and requesting Major Clifton to follow, led the way up to Mrs. Georgia's own room, opened the door, announced the visitor, and retired.

Archer entered the room, and found the lady seated at her work-table, but looking pale and anxious. By her work-box lay the envelope of Kate's true note with the forged note in it.

"Ah!" said Major Clifton, after greeting her, "I see that you have received Kate's note."

"Yes—one that was never intended for my eyes, but those of a fellow conspirator."

"Conspirator, madam!"  
"Yes, sir. Do you surmise all the consequence of those mis-sent letters? Look at this!" she said, throwing it to him, "written by Miss Kavanagh, but directed by mistake to me. Yes, look at it! Examine the envelope! and then read the contents of the note?"

Major Clifton glanced at the superscription, opened the note, and read it through with a cheek growing pale and paler—until he finished it—then tossed it from him, and burying his face in his hands groaned aloud. He had not the slightest suspicion that the infamous letter was a forgery—no!—he had not a single merciful doubt that it was the work of Catherine—nay, he would have sworn to the handwriting, if called upon to do so in a court of justice—he would have sworn to it though Kate's life hung upon his oath! Any one else who had ever seen her peculiar chirography would have felt constrained to do so, if

through the blood. It is only by the use of  
For Ulcers, and Eruptive Diseases of

THE

## Curse of Clifton.

BY MRS. E. D. E. N. SOUTHWORTH.

(Continued from last week.)

The next day Major Clifton rode over to  
White Cliffs to pay his respects to  
Georgia.

The beauty received him with unre-  
strained joy; but in the conversation  
that ensued, reverted to what she called  
"The intrigues of that low born man-  
euverer, Miss Kavanagh," asking him  
if he had observed a great change in Mrs.  
Clifton, ascribable entirely to her in-  
fluence?

It gave Major Clifton great pain to  
hear Catherine traduced in this manner,  
but he believed Mrs. Georgia to be  
perfectly sincere in her opinion, and  
only the victim of a mistake. He told  
the lady so, adding—

"I am about to give Miss Kavanagh  
the highest proof of confidence that one  
being can give another. I am about to  
take her for my life's bosom friend.  
We shall be married in five days."

Had a bullet sped through the heart,  
she could not have given a more agoniz-  
ing bound. Then she struck both hands  
to her temples, started hastily half  
across the floor, paused again as if di-  
tracted, and suddenly cried out—

"You shall not do it! By my soul,  
you shall not do it! You never, never  
shall become the dupe of that woman!  
I have entered the lists with her. I  
mean, that to save you, I have done so,  
and before I leave them, I will prove  
her false and treacherous. God show  
the right!"

Major Clifton gazed upon her in won-  
der. The strong emotion that she had  
exhibited, imposed upon him, for there  
was no doubting its reality; and far  
from suspecting its cause, an unhal-  
lowed passion for himself, he ascribed it  
solely to her strong conviction of Cath-  
erine's unworthiness, and to her disinter-  
ested regard for his own welfare. And  
when she came and threw herself on  
the sofa beside him, and besought, with  
all the eloquence that passion and the  
demon could lend her, that he would  
pause and not hurry on to his ruin, his  
confidence in Catherine's integrity was  
shaken to the foundation. And when at  
the end of an hour he rode home, he  
reached Hardbargain as miserable as the  
doubt of one beloved can make a man.  
If love is the Divine power of trans-  
figuring its objects until faults are ex-  
cellencies, suspicion possesses the de-  
moniac faculty of deforming its victim  
until virtues seem vices, and under its  
influence the highest and best gifts of  
the maiden, her intellect, virtues, and  
graces were turned against her; her meek-  
ness and humility became meanness and  
sympathy, her piety, hypocrisy; and  
her girlish shyness the sinister re-  
serve of conscious guilt.

It was well that on his return he met  
Catherine only in his mother's presence,  
where deep regard for the lady con-  
strained him into something like for-  
bearance; though even then his moody  
manner excited some uneasiness in the  
bosoms of the two ladies. When Cath-  
erine left the room to order dinner, the  
conversation that ensued tended to  
strengthen his newly revived suspicions.  
Mrs. Clifton told him, that with his con-  
sent she would like to leave the farm of

this evening to witness a deed—or rather  
two of them, my dear Kate—the signing  
of the last will and testament, and the  
solemnization of your marriage—for both  
must be hastened, Kate. My dear child,  
take your pen and write at once."

Deeply troubled, extremely agitated,  
yet struggling to govern her feelings,  
Catherine found the writing materials  
and penned the two notes; but when  
she had finished them, in the abstraction  
of her great grief, she misdirected them  
—and sent the note intended for Mrs.  
Georgia to Carl to Mrs. Georgia. When  
she had despatched these notes by differ-  
ent messengers and returned to the par-  
lor, Mrs. Clifton said—

"Call Henny, my dear Kate, and let  
her assist you in getting me up stairs.  
It has come at last, Kate."

Almost dismayed by sorrow, Catherine  
rung the bell that brought the servants  
into the room. And between them they  
raised the lady to her feet. Mrs. Clifton  
took a long look around the room, as  
though she were taking a last leave of  
every dear familiar object in it; and then  
suffered herself to be supported up to  
her chamber.

Mrs. Georgia Clifton was pacing her  
chamber-floor, in all the distraction of  
excited evil passions, racking her brain  
for an expedient to ruin her rival and  
break off the impending marriage, when  
the "spirits that tend on mortal thoughts,"  
furnished her with one. A messenger  
entered and handed her a sealed envelope,  
directed in the handwriting of Catherine  
Kavanagh. She opened it in surprise,  
curiosity, and even in some degree of  
vague, guilty fear, and found within the  
misdirected note of Kate to Carl. It  
read simply as follows:

"DEAR CARL:—

"Mrs. Clifton is almost dying. She  
says you must come to the house this  
afternoon, at four o'clock, to meet a  
lawyer and a clergyman, and with Mrs.  
Georgia Clifton, to witness the signing of  
her last will, and also my marriage. Do  
not keep her waiting. "CATHERINE."

This note contained no expression of  
esteem or affection for the invalid, or  
regret at her approaching death. No!  
for Catherine's veneration and sorrow  
were too earnest, too real, to be a matter  
of wordy formula. But in the evil heart  
of Georgia this simplicity was turned  
against the girl. And her first idea,  
revealed in her smile of satisfaction, was  
to show this mis-sent note to Archer  
Clifton, and bid him look and see with what  
perfect coolness and indifference the  
writer could announce the approaching  
demise of her benefactress. But  
while this thought was revolving in her  
mind, Satan suggested a surer plan—a  
deadly stratagem. And at this inspira-  
tion of the fiend, the dark face of the  
baleful woman lighted up with domestic  
joy. She seized the note again, and  
rushed to the window, and scanned the  
hand-writing, Georgia inherited all the  
imitative talent of her father, the por-  
trait-painter. Catherine's hand-writing  
was unique: small, square letters, with  
heavy strokes, chirography peculiar to  
herself, yet easily imitated. Mrs.  
Georgia copied a few selected words—  
compared them with the originals, and  
was satisfied with her work. Next  
she wished to procure note paper, ex-  
actly like it. Catherine's note was written  
upon neutral-tinted paper, that had been  
given her by Major Clifton. Mrs.  
Georgia recognized it as some that had  
belonged to him. She thought there  
might possibly be a few stray sheets in  
the writing-table of the library. She  
went thither, and after a diligent search,  
found a single sheet. This she took  
with her, and returned to her chamber,  
locked herself in, and set down to finish  
her task. Perfectly imitating the hand-  
writing of Catherine, she forged the  
following letter:

"DEAREST CARL:—

"My long slavery is almost over.  
The old woman is at her last gasp, and  
wants you to come over this afternoon  
at four o'clock, to witness her will and  
my marriage. You see I have succeeded  
in catching the aristocrat, and in wheed-

ing yourself and Mrs. Georgia Clifton  
to Hardbargain, this afternoon, to wit-  
ness the signature of a certain document.  
She placed them in envelopes, and in  
her haste misdirected them—that is all.  
Pray remain here, while I ride over  
home, and bring Mrs. Georgia."

Carl Kavanagh sat down in the hall  
and Major Clifton mounted a fresh horse  
and galloped over to White Cliffs. Dis-  
mounting at the gate, he threw the reins  
to a servant and entering the house  
sent a message to Mrs. Georgia.

The servant returned, and requesting  
Major Clifton to follow, led the way up  
to Mrs. Georgia's own room, opened the  
door, announced the visitor, and retir-  
ed.

Archer entered the room, and found  
the lady seated at her work-table, but  
looking pale and anxious. By her work-  
box lay the envelope of Kate's true note  
with the forged note in it.

"Ah!" said Major Clifton, after greet-  
ing her, "I see that you have received  
Kate's note."

"Yes—one, that was never intended  
for my eyes, but those of a fellow con-  
spirator."

"Conspirator, madam!"

"Yes, sir. Do you surmise all the  
consequence of those mis-sent letters.  
Look at this!" she said, throwing it to  
him, "written by Miss Kavanagh, but  
directed by mistake to me. Yes, look  
at it! Examine the envelope! and  
then read the contents of the note!"

Major Clifton glanced at the super-  
scription, opened the note, and read it  
through with a cheek growing pale and  
paler—until he finished it—then tossed  
it from him, and burying his face in his  
hands groaned aloud. He had not the  
slightest suspicion that the infamous  
letter was a forgery—no!—he had not a  
single merciful doubt that it was the  
work of Catherine—nay, he would have  
sworn to the hand writing, if called upon  
to do so in a court of justice—he would  
have sworn to it though Kate's life hung  
upon his oath! Any one else who had  
ever seen her peculiar chirography  
would have felt constrained to do so, I  
requested—save two—she who lay dy-  
ing at Hardbargain—and she who  
knew nothing about it—and he, the re-  
jected lover, now far away, who would  
have cast that note aside in high dis-  
dain, and staked his honour on the  
truth. Clifton groaned aloud, in the  
bitterness of disappointed esteem. Re-  
sentment itself was swallowed up in sor-  
row, and she exclaimed—

"Oh! would to God she had died, O  
I had, before I knew this!"

"Rejoice, rather, that you are sav-  
ed!"

"Saved, madam!"

"Yes—saved. You will never marry  
her, now. You are perfectly justifiab-  
ly breaking with the unmasked trait-  
ress!"

"And in shaking the last few sand  
in my mother's glass of life. The dis-  
covery of that girl's treachery has driven  
me to despair—it will kill my mother.  
No, lady! I must marry her, that my  
beloved mother may depart in peace."

"Marry her!" screamed Georgia  
with the cry of a wounded hyena—  
marry her, and sacrifice all your hope  
of happiness, for the sake of keeping  
quiet the last few hours of a dying  
woman! You will not do such a thing!

"My hopes of happiness, did you say  
Mrs. Clifton? Ah, lady, can you not  
comprehend, then, that when one at my  
age has discovered—beyond all possib-  
ility of doubt—the total unworthiness of  
one of the most beloved on earth—the  
heart's most cherished darling—the  
life's dearest hope—" down broke his  
voice, and down dropped his head upon  
his hands—then rising, impatiently, he  
exclaimed—"I say, can you not com-  
prehend that I have no hopes of happi-  
ness left? I loved her so! I trusted her so  
I sacrificed such strong prejudices for  
her! And I was as happy as a con-  
verted sinner, when the struggle was over  
and the sacrifice made. I could have  
shaken hands with her freckled-hand-  
ed brother, and claimed kindred with all his  
ragged race! And now—I am unmar-  
ried! I am a fool!"

"No, you are not, unless you mar-

Napanee, Aug. 5th, '78. 14-2m.

solely to her strong conviction of Catherine's unworthiness, and to her disinterested regard for his own welfare. And when she came and threw herself on the sofa beside him, and besought, with all the eloquence that passion and the demon could lend her, that he would pause and not hurry on to his ruin, his confidence in Catherine's integrity was shaken to the foundation. And when at the end of an hour he rode home, he reached Hardbargain as miserable as the doubt of one beloved can make a man. If love is the Divine power of transfiguring its objects until faults are excellencies, suspicion possesses the demoniac faculty of deforming its victim until virtues seem vices, and under its influence the highest and best gifts of the maiden, her intellect, virtues, and graces were turned against her; her talent seemed intriguing art; her meekness and humility became meanness and sycophancy, her piety, hypocrisy; and her girlish shyness the sinister reserve of conscious guilt.

It was well that on his return he met Catherine only in his mother's presence, where deep regard for the lady constrained him into something like forbearance; though even then his moody manner excited some uneasiness in the bosoms of the two ladies. When Catherine left the room to order dinner, the conversation that ensued tended to strengthen his newly revived suspicions. Mrs. Clifton told him, that with his consent she would like to leave the farm of Hardbargain to Catherine, as a testimony of her esteem and affections.

"And for a more practical reason, too," she said, "for you know, my dear Archer, that the estate of White Cliffs being entailed—if you should die before her, and without male childer—Catherine and her daughters, if she should have any, would be left homeless. But if I leave her this farm of Hardbargain, it can make no difference to you during your life, and if Catherine happen to survive you, it will secure her a home. What do you think of this plan, Archer? You look grave and troubled. If you have the slightest objection, I will not carry it out, of course."

"Surely I have not the least right to object, my dear mother; your property you have made by your own labor, and improved by your own admirable management."

"You have the right of nature, my dear Archer; and I see by your gravity, that you dislike the arrangement; therefore it shall not be made."

"You mistake my thoughtfulness, dear madam. If I am somewhat grave, it is upon another subject. Believe me, I have not the slightest fault to find with this plan; neither does it take me by surprise, I have been prepared for it months since. Mrs. Georgia Clifton informed me that such was your intention."

"Is it possible? How could Georgia have known anything about it? But I suppose she has heard me drop words to that effect. May I hope then, that this purpose meets your approbation, Archer?"

"Certainly, madam, it can make no material difference, if Kate is to be my wife. And, if she were not to be so, I should be quite as well pleased."

Unconscious of the double meaning of his words, the lady then inquired into the cause of his gloom.

"Merely a fit of moodiness, dear mother; the reaction, perhaps, of yesterday's joy; a mere depression of spirits, which a brisk gallop over the hills will throw off."

"If you are inclined for a ride, Archer, you can do me a service at the same time, if you will go to L— and bring out Mr. White, the lawyer, to draw up my will."

A spasm pain passed over the handsome countenance of Major Clifton, and he said—

"I will do anything you please, dear mother; but surely there is no necessity for haste in this matter."

while this thought was revolving in her mind, Satan suggested a surer plan—a deadly stratagem. And at this inspiration of the fiend, the dark face of the ballet woman lighted up with domestic joy. She seized the note again, and rushed to the window, and scanned the hand-writing, Georgia inherited all the imitative talent of her father, the portrait-painter. Catherine's hand-writing was unique: small, square letters, with heavy strokes, chirography peculiar to herself, yet easily imitated. Mrs. Georgia copied a few selected words—compared them with the originals, and was satisfied with her work. Next she wished to procure note paper, exactly like it. Catherine's note was written upon neutral-tinted paper, that had been given her by Major Clifton. Mrs. Georgia recognized it as some that had belonged to him. She thought there might possibly be a few stray sheets in the writing-table of the library. She went thither, and after a diligent search, found a single sheet. This she took with her, and returned to her chamber, locked herself in, and set down to finish her task. Perfectly imitating the hand-writing of Catherine, she forged the following letter;

"DEAREST CARL:—

"My long slavery is almost over. The old woman is at her last gasp, and wants you to come over this afternoon at four o'clock, to witness her will and my marriage. You see I have succeeded in catching the aristocrat, and in wheeling his mother into giving me Hardbargain, in my sole right. Am I not a triumphant diplomatist? When she is dead, and I am married, and mistress of White Cliffs and of Hardbargain, as I shall probably reside at the principal seat, I intend to let you this farm, on the easiest terms. Never fear Major Clifton's interference. You know I know how to manage him."

"CATHERINE."

When she had completed her demon-work, Georgia carefully examined it. It satisfied her. She smiled, and muttered—"Any one who ever saw Catherine's queer hand-writing, would feel safe in swearing this to be hers." Then she folded it in the form of the other note and placed it in the original envelope—and threw it, broken-sealed as it was, upon the table, exclaiming—"There I—

"I have set my life upon a cast.  
And will abide the hazard of the die."

In the meanwhile, Catherine watched by the bedside of Mrs. Clifton, awaiting the return of Major Clifton, with the clergyman and the attorney.

About three o'clock in the afternoon the party arrived. The professional gentlemen remained in the parlor, while Major Clifton went up into the chamber of his mother. As he approached her bed, and perceived the fearful change a few hours had wrought in her appearance, and recognized the sure approach of the, he was so shocked, so overwhelmed with sorrow, that it was with the utmost difficulty he could sustain his self-command.

She held out to him her wasted hand, saying, quietly—

"My dear Archer, I wish to have the marriage ceremony between you and Kate performed this afternoon, if you please."

"Certainly, my dear mother, it shall be as you desire," he replied, repressing a great groan—but desirous, above all things, to gratify that dying parent. "Shall it be now, mother?"

"No, dear Archer, not just yet—I want the holiest things left for the last. I want the will drawn up, witnessed, signed and sealed first; then the marriage ceremony performed; and last, I wish to receive the Holy Communion—after which, I shall be ready to depart."

"Mother—the minister and the lawyer are below stairs, awaiting your leisure—they will remain over to-night. Do not disturb yourself."

"My good Archer, I made Catherine write to Carl Kavanagh and to Mrs.

"Saved, madam."

"Yes—saved. You will never marry her, now. You are perfectly justifiable in breaking with the unmasked traitress!"

"And in shaking the last few sand in my mother's glass of life. The discovery of that girl's treachery has driven me to despair—it will kill my mother. No, lady! I must marry her, that my beloved mother may depart in peace."

"Marry her!" screamed Georgia with the cry of a wounded hyena—marry her, and sacrifice all your hope of happiness, for the sake of keeping quiet the last few hours of a dying woman! You will not do such a thing!"

"My hopes of happiness, did you say? Mrs. Clifton? Ah, lady, can you not comprehend, then, that when one at my age has discovered—beyond all possibility of doubt—the total unworthiness of one of the most beloved on earth—the heart's most cherished darling—the life's dearest hope—down broke her voice, and down dropped his head upon his hands—than rising, impatiently, I exclaimed—"I say, can you not comprehend that I have no hopes of happiness left? I loved her so! I trusted her so! I sacrificed such strong prejudices for her! And I was as happy as a converted sinner, when the struggle was over and the sacrifice made. I could have shaken hands with her freckled-hand brother, and exclaimed kindred with all my ragged race! And now—I am unmined! I am a fool!"

"No, you are not, unless you marry her. You are not the first noble-minded man that has been duped by a woman! You feel it as every generous hearted man would. But it will pass. Life has many chances, and you will be happy yet. My friendship is not much, perhaps, but is it not something?"

"Yes—yes—yes—yes—sweet friend it is much," said Archer Clifton, slowly half gollorquizing, as he took and held her hand. Then suddenly starting, out of a reverie, he exclaimed—"Mr. Clifton, you know my errand here—it is to bring you over to Hardbargain, for the purpose of which you have already been advised by the note."

"To be present at your mad marriage among other things?"

"Yes."

"I will not go! I cannot! I cannot witness such a sacrifice."

"Ah, you please, dear Georgia, suppose there is no imperative necessity of your doing so good-bye!" and he arose, and lifted his hat from the table.

"Yes! good-bye, indeed!" replied Georgia, bitterly—"good-bye, indeed if you persist in your mad purpose—I shall remain here, and hope to the last. But when I hear that this marriage I really taken place, I leave White Cliffs within the hour!"

"You will think differently, dear lady, and I shall see you again, shortly."

"Never!—as the husband of the traitress."

He did not reply. He raised his hand to his lips, and left her.

Left to herself, mad impulses seized the disappointed woman. At once she was impelled to seize the forged letter, and rush to the death-bed of Mrs. Clifton, and there denounce her favor as a hypocrite and a traitress. But moment's reflection convinced her that no act of hers could induce the dying woman to think evil of the excellent she herself had educated. That on the contrary, such a step might possibly result in her own signal defeat and posture, and the everlasting anger and contempt of Archer Clifton. Her brow was beginning to reel, and her self-confidence to wane. In sudden fear, she looked around for the forged letter, tending to burn it. It was nowhere to be seen. Then she recollected that Major Clifton had, on departing, picked it up, and put it in his pocket. And with disappointed love, jealousy, hatred, fear, she tethered towards a lounge, where she reached it all upon the floor. In the meanwhile, Major Clifton, still

## Strange Death-Bed Scene.

When the Rev. Dr. E. G. Brooks, the late distinguished Universalist clergyman of Philadelphia, was lying near death, his doctor, J. W. White, obtained a telephone to divert him in his constant agony. On taking the telephone to his house, Dr. Brooks was found so weak and so distressed in his breathing that the physician was reluctant to try it, but the sick man insisted on the attempt.

The wires were arranged between the sick man and the dining-room down stairs. Dr. White proceeds: "When all was arranged, however, to the best of my ability, I placed one of the mouth-pieces in his hand and told him I would go down and test it, and if all necessary conditions had been met he could hear my voice, but that he would have to get some one else to reply, as he was too weak to attempt it. Taking the mouth-pieces at the other end I repeated: 'The Lord reigneth; let the earth rejoice; let the multitude of the isles be glad thereof.'

To my utter astonishment, instantly came the response:

"Clouds and darkness are around about him; righteousness and judgment are the habitation of his throne!"

It was the voice of Dr. Brooks, the tones clear and distinct, the intonation and emphasis perfect. I was amazed. But a moment before I had left him apparently to weak and too much oppressed to speak above a whisper. I was fairly startled. I could not be mistaken, but I could hardly believe the testimony of my ears. I repeated:

"Come, let us worship and bow down; let us kneel before the Lord our Maker."

Once more, and as promptly as in a church service, the Doctor responded:

"For He is our God, and we are the people of his pasture, and the sheep of his hand."

I then repeated a verse from that grand old hymn of Pierpont:

Not now on Zion's height alone,  
Thy favored worshiper may dwell;  
Not where at noon Thy Son  
Sat weary, by the patriarchs' well."

And, just as though it had been arranged before hand, as promptly as though a set form were being followed, the voice from that bed of sickness took up the strain:

"From every place below the skies  
The grateful song the fervent prayer,  
The increase of the heart may come,  
To Heaven, and find acceptance there."

I next quoted the verse of the familiar hymn:

Oh! for a faith that will not shrink,  
Though pressed by every foe;  
That will not tremble on the brink  
Of any earthly woe!"

And the Doctor responded, quoting the last verses of the same hymn:

"Lord, give us such a faith as this,  
And then, whatever may come,  
We'll taste even here the hallowed bliss  
Of an eternal home!"

I was anxious that the Doctor's strength, which was but weakness should

FRIDAY, NOV. 15, 1878.

NO. 28

"Archer, there is. Besides, my mind will be easier when it is done. And Archer, lastly—bring with you a clergyman. I wish to receive the Holy Communion."

Major Clifton made no farther objection, but left the room to order his horse; and in less than half an hour he found himself on his way to L—.

Mrs. Clifton summoned Kate. When the girl entered, she found the lady on the verge of fainting from over-exertion and extreme weakness. Catherine grew pale with sudden fear, and her hands trembled as she poured out and administered a restorative. Somewhat revived by the cordial, Mrs. Clifton said—

"Kate, write two notes, one to Mrs. Georgia Clifton, and one to your brother Carl, asking each of them to come here this evening to witness a deed—or rather two of them, my dear Kate—the signing of the last will and testament, and the solemnization of your marriage—for both must be hastened, Kate. My dear child, take your pen and write at once."

Deeply troubled, extremely agitated, struggling to govern her feelings, Catherine found the writing materials and penned the two notes; but when he had finished them, in the abstraction of her great grief, she misdirected them—and sent the note intended for Mrs. Georgia to Carl Kavanagh, and that intended for Carl to Mrs. Georgia. When he had despatched these notes by different messengers and returned to the parlor, Mrs. Clifton said—

"Call Henny, my dear Kate, and let her assist you in getting me up stairs. It is come at last, Kate."

Almost dismayed by sorrow, Catherine rung the bell that brought the servants into the room. And between them they aided the lady to her feet. Mrs. Clifton took a long look around the room, as though she were taking a last leave of very dear familiar object in it; and then offered herself to be supported up to her chamber.

Mrs. Georgia Clifton was pacing her hamper-floor, in all the distraction of excited evil passions, racking her brain for an expedient to ruin her rival and wreak off the impending marriage, when she "spirited that tend on mortal thoughts," vanished her with one. A messenger entered and handed her a sealed envelope directed in the handwriting of Catherine Kavanagh. She opened it in surprise, curiosity, and even in some degree of awe, guilty fear, and found within the misdirected note of Kate to Carl. It said simply as follows:

DEAR CARL:—

"Mrs. Clifton is almost dying. She says you must come to the house this afternoon, at four o'clock, to meet a lawyer and a clergyman, and with Mrs. Georgia Clifton, to witness the signing of her last will, and also my marriage. Do not keep her waiting." CATHERINE.

This note contained no expression of esteem or affection for the invalid, or

Georgia to come to see me this afternoon, they have not yet arrived. Please go and send again for them."

Archer Clifton bent and kissed his mother's forehead, and went down stairs. In the hall he saw Carl Kavanagh, hat in hand, waiting.

Carl immediately advanced and said—

"Ah! Major Clifton, I am waiting here to see my sister, to return to her this note, that she has sent me by mistake. I think—perhaps you can explain it." And he handed to Archer Clifton the mis-sent note of Catherine to Georgia.

Major Clifton understood the mistake at once, and retaining the note replied—

"Catherine wrote two notes, summoning yourself and Mrs. Georgia Clifton to Hardbargain, this afternoon, to witness the signature of a certain document. She placed them in envelopes, and in her haste misdirected them—that is all. Pray remain here, while I ride over home, and bring Mrs. Georgia."

Carl Kavanagh sat down in the hall, and Major Clifton mounted a fresh horse, and galloped over to White Cliffs. Dismounting at the gate, he threw the reins to a servant and entering the house, sent a message to Mrs. Georgia.

The servant returned, and requesting Major Clifton to follow, led the way up to Mrs. Georgia's own room, opened the door, announced the visitor, and retired.

Archer entered the room, and found the lady seated at her work-table, but looking pale and anxious. By her work-box lay the envelope of Kate's true note with the forged note in it.

"Ah!" said Major Clifton, after greeting her, "I see that you have received Kate's note."

"Yes—one that was never intended for my eyes, but those of a fellow conspirator."

"Conspirator, madam!"

"Yes, sir. Do you surmise all the consequence of those mis-sent letters? Look at this!" she said, throwing it to him, "written by Miss Kavanagh, but directed by mistake to me. Yes, look at it! Examine the envelope! and then read the contents of the note?"

Major Clifton glanced at the superscription, opened the note, and read it through with a cheek growing pale and paler—until he finished it—then tossed it from him, and burying his face in his hands groaned aloud. He had not the slightest suspicion that the infamous letter was a forgery—no!—he had not a single merciful doubt that it was the work of Catherine—nay, he would have sworn to the hand writing, if called upon to do so in a court of justice—he would have sworn to it though Kate's life hung upon his oath! Any one else who had ever seen her peculiar chirography would have felt constrained to do so, if requested—save two—she who lay dying at Hardbargain—and she who was to know nothing about it—and he, the re-

at full speed, reached the farm-house.

On reaching Hardbargain, Major Clifton went immediately to Mrs. Clifton's chamber. He found her still sinking. She inquired, in a faint voice, whether he had brought Mrs. Georgia. He replied, with perhaps a pardonable ambiguity of speech, that Mrs. Georgia was too much indisposed to attend.

Then she said that she supposed Mr. White (the clergyman) would consent to act in her stead. She informed him the attorney had been with her, and had drawn up her will according to her instruction, and she requested that the parties might be assembled in her room to witness the signing. Major Clifton left the chamber to summon them, and soon returned, accompanied by the lawyer, the minister, Carl Kavanagh and Catherine. The will was then read, after which the lady was raised up in bed and supported in the arms of her son; the document was placed upon a portfolio and laid before her, and a pen dipped in ink and presented to her. She signed her name, and immediately sank back exhausted.

The two witnesses affixed their signatures, and the will was delivered into the custody of the attorney. A restorative was administered to the invalid, and she was arranged comfortably upon her pillow.

Then she took the hand of her son, and whispered—

"Let the marriage ceremony be performed at once, dearest Archer."

He pressed that wan hand, laid it tenderly down upon the coverslet, and spoke apart with the clergyman, who occupied the chair beside the head of the bed. The minister solemnly arose, drew a prayer-book from his pocket and opened it. Major Clifton went quietly and spoke a few words in explanation to the lawyer and Carl Kavanagh, who then approached the bed-side.

Lastly, he took the hand of Catherine, and led her up before the minister. The marriage ceremony commenced. It was performed according to the ritual of the Protestant Episcopal Church. But when the great question was put to the bridegroom—"Archer, wilt thou have this woman to be thy wedded wife, to live together after God's ordinance, in the holy estate of matrimony? Wilt thou love her, comfort her honor her," etc.,—

instead of answering, according to the ritual, "I will," he replied by a grave and formal bow, with silent lips, "that scarce their scorn forbore." When the corresponding question was put to the bride, Kate too replied by a gentle inclination of the head, but her true heart responded sincerely, and truthfully. When the last benediction was given, and when, according to the old formula, the bridegroom was to salute his bride, he merely touched her cheek with a little lip, and passed her on to his mother, who held out her arms to embrace her daughter.

The singularity of Major Clifton's manner was scarcely noticed, or it was ascribed to the solemnity of the attending circumstances. Mrs. Clifton desired that all, with the exception of

“Henny, my dear Kate, and let her assist you in getting me up stairs. It has come at last, Kate.”

Almost dismayed by sorrow, Catherine ung the bell that brought the servants into the room. And between them they aised the lady to her feet. Mrs. Clifton ook a long look around the room, as hough she were taking a last leave of very dear familiar object in it; and then uffered herself to be supported up to ier chamber.

Mrs. Georgia Clifton was pacing her hamber-floor, in all the distraction of excited emotions, racking her brain or an expedient to ruin her rival and reek off the impending marriage, when he “spirits that tend on mortal thoughts,” unished her with one. A messenger ntered and handed her a sealed envelope. irected in the handwriting of Catherine avanagh. She opened it in surprise, uriosity, and even in some degree of ague, guilty fear, and found within the misdirected note of Kate to Carl. It ead simply as follows:

DEAR CARL:—

“Mrs. Clifton is almost dying. She ays you must come to the house this ternoon, at four o’clock, to meet a wyer and a clergyman, and with Mrs. Georgia Clifton, to witness the signing of er last will, and also my marriage. Do ot keep her waiting. “CATHERINE.”

This note contained no expression of steem or affection for the invalid, or egret at her approaching death. No! or Catherine’s veneration and sorrow vere too earnest, too real, to be a matter f wordy formula. But in the evil heart f Georgia this simplicity was turned ajust the girl. And her first idea, ealed in her smile of satisfaction, was o show this mis-sent note to Archer Clif-on, and bid him look and see with what ertect coolness and indifference the riter could announce the approaching lemise of her benefactress. But hile this thought was revolving in her ind, Satan suggested a surer plan—a eadly stratagem. And at this inspira-on of the fiend, the dark face of the adlet woman lighted up with domestic oy. She seized the note again, and ushed to the window, and scanned the and-writing, Georgia inherited all the mitative talent of her father, the port-ait-painter. Catherine’s hand-writing as unique: small, square letters, with eavy strokes, chirography peculiar to herself, yet easily imitated. Mrs. Georgia copied a few selected words—ompared them with the originals, and as satisfied with her work. Next he wished to procure note paper, exact-ly like it. Catherine’s note was written pon neutral-tinted paper, that had been iven her by Major Clifton. Mrs. Georgia recognized it as some that had elonged to him. She thought there ight possible be a few stray sheets in he writing-table of the library. She ent thither, and after a diligent search, ound a single sheet. This she took ith her, and returned to her chamber, ocked herself in, and set down to finish er task. Perfectly imitating the hand-writing of Catherine, she forged the following letter:

“DEAREST CARL:—

“My long slavery is almost over. The old woman is at her last gasp, and wants you to come over this afternoon at four o’clock, to witness her will and my marriage. You see I have succeeded in catching the aristocrat, and in wheedling his mother into giving me Hardbargain, in my sole right. Am I not a triumphant diplomatist? When she is dead, and I am married, and mistress of White Cliffs and of Hardbargain, as I shall probably reside at the principal seat, I intend to let you this farm, on the easiest terms. Never fear Major Clifton’s interference. You know I know how to manage him.

“CATHERINE.”

When she had completed her demon-work, Georgia carefully examined it. It satisfied her. She smiled, and muttered—“Any one who ever saw Catherine’s queer hand-writing, would feel safe in swearing this to be here.” Then she folded it in the form of the other note

Archer entered the room, and found the lady seated at her work-table, but looking pale and anxious. By her work-book lay the envelope of Kate’s true note with the forged note in it.

“Ah!” said Major Clifton, after greeting her, “I see that you have received Kate’s note.”

“Yes—one that was never intended for my eyes, but those of a fellow conspirator.”

“Conspirator, madam!”

“Yes, sir. Do you surmise all the consequence of those mis-sent letters? Look at this!” she said, throwing it to him, “written by Miss Kavanagh, but directed by mistake to me. Yes, look at it! Examine the envelope! and then read the contents of the note!”

Major Clifton glanced at the super-scription, opened the note, and read it through with a cheek growing pale and paler—until he finished it—then tossed it from him, and burying his face in his hands groaned aloud. He had not the slightest suspicion that the infamous letter was a forgery—no!—he had not a single merciful doubt that it was the work of Catherine—may, he would have sworn to the hand writing, if called upon to do so in a court of justice—he would have sworn to it though Kate’s life hung upon his oath! Any one else who had ever seen her peculiar chirography would have felt constrained to do so, if requested—save two—she who lay dying at Hardbargain—and she was to know nothing about it—and he, the rejected lover, now far away, who would have cast that note aside in high disdain, and staked his honour on the truth. Clifton groaned aloud, in the bitterness of disappointed esteem. Regretment itself was swallowed up in sorrow, and she exclaimed—

“Oh! I would to God she had died, or I had, before I knew this!”

“Rejoice, rather, that you are saved!”

“Saved, madam?”

“Yes—saved. You will never marry her, now. You are perfectly justifiable in breaking with the unmasked traitress!”

“And in shaking the last few sands in my mother’s glass of life. The discovery of that girl’s treachery has driven me to despair—it will kill my mother! No, lady! I must marry her, that my beloved mother may depart in peace.”

“Marry her!” screamed Georgia, with the cry of a wounded hyena—marry her, and sacrifice all your hopes of happiness, for the sake of keeping quiet the last few hours of a dying woman! You will not do such a thing!”

“My hopes of happiness, did you say, Mrs. Clifton? Ah, lady, can you not comprehend, then, that when one at my age has discovered—beyond all possibility of doubt—the total unworthiness of one of the most beloved on earth—the heart’s most cherished darling—the life’s dearest hope—” down broke his voice, and down dropped his head upon his hands—then rising, impatiently, he exclaimed—“I say, can you not comprehend that I have no hopes of happiness left? I loved her so! I trusted her so! I sacrificed such strong prejudices for her! And I was as happy as a converted sinner, when this struggle was over and the sacrifice made. I could have shaken hands with her feeble-handed brother, and claimed kindred with all his ragged race! And now—I am unnumbered! I am a fool!”

“No, you are not, unless you marry her. You are not the first noble-minded man that has been duped by a bad woman! You feel it as every generous-hearted man would. But it will pass. Life has many chances, and you will be happy yet. My friendship is not much, perhaps, but is it not something?”

“Yes—yes—yes—yes—sweet friend, it is much,” said Archer Clifton, slowly—half colloquizing, as he took and held her hand. Then suddenly starting, as out of a reverie, he exclaimed—“Mrs. Clifton, you know my errand here—it is to bring you over to Hardbargain, for the purpose of which you have already been advised by the note.”

“To be present at your mad marriage,

spoke apart with the clergyman, who occupied the chair beside the head of the bed. The minister solemnly arose, drew a prayer-book from his pocket and opened it. Major Clifton went quietly and spoke a few words in explanation to the lawyer and Carl Kavanagh, who then approached the bed-side. Lastly, he took the hand of Catherine, and led her up before the minister. The marriage ceremony commenced. It was performed according to the ritual of the Protestant Episcopal Church. But when the great question was put to the bridegroom—“Archer, wilt thou have this woman to be thy wedded wife, to live together after God’s ordinance, in the holy estate of matrimony? Wilt thou love her, comfort her honour her,” etc.—instead of answering, according to the ritual, “I will,” he replied by a grave and formal bow, with silent lips, “that scarce their scorn forbore.” When the corresponding question was put to the bride, Kate too replied by a gentle inclination of the head, but her true heart responded sincerely, earnestly. When the last benediction was given, and when, according to the old formula, the bridegroom was to salute his bride, he merely touched her cheek with a little lip, and passed her on to his mother, who held out her arms to embrace her daughter. The singularity of Major Clifton’s manner was scarcely noticed, or it was ascribed to the solemnity of the attending circumstances. Mrs. Clifton now desired that all, with the exception of her son and daughter and the clergyman, should bid her adieu and leave the room. Her request was complied with, and when they had retired, she signified her wish to partake of the Sacrament of the Lord’s Supper with her children. Major Clifton was constrained to decline, upon conscientious scruples; for how could he partake of the Sacrament of peace and brotherly love, with his heart consumed with indignation against his newly-married bride? Catherine, however, participated in the Holy Communion, while he looked on with surprise, mixed with a degree of horror. When the sacred rite was over, the minister of God took an affectionate leave, and departed. When the minister was gone, and they were left alone together, the dying mother beckoned her son and daughter to come and sit near her. They obeyed her, and she addressed them in a few words of earnest, affectionate counsel, blessed them, and resigned herself to rest. Her eyelids closed calmly, and her breathing was gentle and regular; they had to mark attentively before they knew that it grew fainter and fainter. Once she opened her eyes, and, smiling her reflecting smile, said—

“Dear Archer, I have often tried to detect the exact moment of falling asleep. I watch now, to see if I can seize the precise instant of passing from mortal to immortal life.”

And she closed her eyes again. After a few minutes, she said—

“Sing to me, dear Kate! You know—Heber’s death hymn.”

Catherine bent and kissed the pallid lips of the dying woman, and then her voice arose, sweet, clear and spiritual as angel’s songs, in that immortal requiem—

“Vital spark of heavenly flame: Quit, oh! quit this mortal frame; Trembling, hoping, ling’ring, flying, Oh! the pain, the bliss of dying! Hasten, thy whisper, angels say— Hither spirit, come away—

At the end of the first stanza, she murmured, faintly—

“Your voice, too, dear Archer.”

His voice arose now in unison with Catherine’s and they sang the remainder—

“The world recedes—it disappears; Heavy as quens on my eyes; my ears With sounds seraphic ring. Lend, lend your wings; I mount, I fly! Oh, grave, where is thy victory? Oh, death, where is thy sting?

They ceased, and looked upon the marbled face before them. It was still in death, but there remained upon the countenance the impress of the ecstatic smile with which the spirit had taken its flight—

“Her death,”

but I could hardly believe the testimony of my ears. I repeated:

“O come, let us worship and bow down; let us kneel before the Lord our Maker.”

Once more, and as promptly as in a church service, the Doctor responded:

“For He is our God, and we are the people of his pasture, and the sheep of his hand.”

I then repeated a verse from that grand old hymn of Pierpont:

Not now on Zion’s height alone,  
Thy favored worshiper may dwell;  
Not where at noon Thy Son  
Sat weary, by the patriarchs’ well.”

And, just as though it had been arranged before hand, as promptly as though a set form were being followed, the voice from that bed of sickness took up the strain:

“From every place below the skies  
The grateful song, the fervent prayer,  
The incense of the heart may rise  
To Heaven, and find acceptance there.”

I next quoted the verse of the familiar hymn:

Oh! for a faith that will not shrink,  
Though pressed by every foe—  
That will not tremble on the brink  
Of any earthly woe!”

And the Doctor responded, quoting the last verses of the same hymn:

“Lord, give us such a faith as this,  
And then, whatever may come,  
We’ll taste even here the hallowed bliss  
Of an eternal home!”

I was anxious that the Doctor’s strength, which was but weakness should not be too far taxed, and I suggested that he had better allow some one else to speak for him, but he responded, “One thing more,” and then, in slow, measured, distinct utterance—the tone of triumph unmistakable—he repeated the jubilant testimony of Paul:

“The sting of death is sin; and the strength of sin is the law. But thanks be to God, who giveth us the victory through our Lord Jesus Christ.”

A strange and solemn sensation stole me. A few minutes before I had felt Dr. Brooks “kick unto death”—so weak, oppressed, distressed; laboring for breath; talking in disjointed utterances; but recently aroused, as I had been told, from a sinking spell, which it was feared would have been his last. And now, in tones as clear, as distinct, as well-enunciated as I ever heard from him in the pulpit when in health, and yet minimized by that strange, weird, thrilling, telephonic modification—preserving all that is characteristic in the speech of an individual, and at the same time giving the impression of almost infinite distance—came the triumphant exclamation:

“Thanks be to God, who giveth us the victory through our Lord Jesus Christ!”

I could but fancy that, during my absence, the silver cord had been loosened, the golden bowl broken, and that exultant “Thanks be to God!” was the outburst of the freed spirit. And when I returned to his room and found him lying on the floor, I felt like one who would have met him whom he had the last seen—Christ in leader.

Remains of A. T. Stewart’s Remains.

George Hamill, sexton of St. Mark’s Church, was Stewart’s undertaker. Early this week, Francis Parker, assistant sexton, discovered that the vault slabs had been tampered with; the stone at the head of the vault had been removed and taken away from its position, and the entrance several feet under the slab. As the stone was not over the opening of the vault, however, the thieves had been disappointed. Hamill reported the occurrence to Judge Hilton. A consultation was held as to the best means of guarding the vault. At Hamill’s suggestion, the mounting the vault was removed, and taken to the south of its true position, and the deceiving persons who might wish to steal the body. A watchman was engaged and he patrolled the vault every night until a few days ago. Hamill was in the churchyard at 5 p.m. on Wednesday and noticed nothing. When the sexton came to the churchyard on Thursday morning he saw that the vault had been disturbed. The

his thought was revolting in her Satan suggested a surer plan—a stratagem. And at this inspiring fiend, the dark face of the woman lighted up with domestic She seized the note again, and to the window, and scanned the writing, Georgia inherited all the ve talent of her father, the port-inter. Catherine's hand-writing lique: small, square letters, with strokes, chirography peculiar to yet easily imitated. Mrs. a copied a few selected words— red them with the originals, and atished with her work. Next shed to procure note paper, exact- it. Catherine's note was written neutral-tinted paper, that had been her by Major Clifton. Mrs. a recognized it as some that had ed to him. She thought there possible be a few straw sheets in riting-table of the library. She hither, and after a diligent search, a single sheet. This she took er, and returned to her chamber, herself in, and set down to finish sk. Perfectly imitating the hand- g of Catherine, she forged the ing letter;

REST CARL:— y long slavery is almost over. d woman is at her last gasp, and you to come over this afternoon o'clock, to witness her will and arriage. You see I have succeeded hing the aristocrat, and in wheel- s mother into giving me Hard- n, in my sole right. Am I not a phant diplomatist? When she is and I am married, and mistress of Cliffs and of Hardbargain, as I roably reside at the principal intend to let you this farm, on asiest terms. Never fear Major s interference. You know I know a manago him.

"CATHERINE." en she had completed her demon- Georgia carefully examined it. It ed her. She smiled, and muttered ny one who ever saw Catherine's hand-writing, would feel safe in ing this to be hers." Then she it in the form of the other note laced it in the original envelope— rew it, broken-sealed as it was, the table, exclaiming—"There!

"I have set my life upon a cast. and will abide the hazard of the die."

he meanwhile, Catherine watched a bedside of Mrs. Clifton, awaiting turn of Major Clifton, with the man and the attorney. ut three o'clock in the afternoon arty arrived. The professional men remained in the parlor, while r Clifton went up into the chamber mother. As he approached her d, and perceived the fearful change hours had wrought in her appear- and recognized the sure approach e, he was so shocked, so over- ned with sorrow, that it was with most difficulty he could sustain his mand.

held out to him her wasted hand, g, quietly— ly dear Archer, I wish to have the age ceremony between you and Kate med this afternoon, if you s."

certainly, my dear mother, it shall you desire," he replied, repressing it group—but desirous, above all s, to gratify that dying parent. if it be now, mother?"

o, dear Archer, not just yet—I the holiest things left for the last. it the will drawn up, witnessed, l and sealed first; then the mari- ceremony performed; and last, I to receive the Holy Communion— which, I shall be ready to depart." father—the minister and the lawyer slow stairs, awaiting your leisure— will remain over to-night. Do not rh yourself." ly good Archer, I made Catherine to Carl Kavanagh and to Mrs.

"Sayed, madam."

"Yes—sayed. You will never marry her, now. You are perfectly justifiable in breaking with the unmasked traitress!"

"And in shaking the last few sands in my mother's glass of life. The discovery of that girl's treachery has driven me to despair—it will kill my mother! No, lady! I must marry her, that my beloved mother may depart in peace."

"Marry her!" screamed Georgia, with the cry of a wounded hyena— marry her, and sacrifice all your hopes of happiness, for the sake of keeping quiet the last few hours of a dying woman! You will not do such a thing!"

"My hopes of happiness, did you say, Mrs. Clifton? Ah, lady, can you not comprehend, then, that when one at my age has discovered—beyond all possibility of doubt—the total unworthiness of one of the most beloved on earth—the heart's most cherished darling—the life's dearest hope—" down broke his voice, and down dropped his head upon his hands—then rising, impatiently, he exclaimed—"I say, can you not comprehend that I have no hopes of happiness left? I loved her so! I trusted her so! I sacrificed such strong prejudices for her! And I was as happy as a converted sinner, when the struggle was over and the sacrifice made. I could have shaken hands with her freckled-handed brother, and claimed kindred with all his ragged race! And now—I am unruined! I am a fool!"

"No, you are not, unless you marry her. You are not the first noble-minded man that has been duped by a bad woman! You feel it as every generous-hearted man would. But it will pass. Life has many chances, and you will be happy yet. My friendship is not much, perhaps, but it is not something."

"Yes—yes—yes—yes—sweet friend, it is much," said Archer Clifton, slowly—half gollorquizing, as he took and held her hand. Then suddenly starting, as out of a reverie, he exclaimed—"Mrs. Clifton, you know my errand here—It is to bring you over to Hardbargain, for the purpose of which you have already been advised by the note."

"To be present at your mad marriage, among other things?"

"Yes."

"I will not go! I cannot! I cannot witness such a sacrifice."

"As you please, dear Georgia. I suppose there is no imperative necessity of your doing so—good-bye!" and he arose, and lifted his hat from the table.

"Yes! good-bye, indeed!" replied Georgia, bitterly—"good-bye, indeed! if you persist in your mad purpose!—I shall remain here, and hope to the last. But when I hear that this marriage has really taken place, I leave White Cliffs within the hour!"

"You will think differently, dear lady, and I shall see you again, shortly."

"Never!—as the husband of that traitress!"

He did not reply. He raised her hand to his lips, and left her.

Left to herself, mad impulses seized the disappointed woman. At one instant she was impelled to seize the forged letter, and rush to the death-bed of Mrs. Clifton, and there denounce her favorite as a hypocrite and a traitress. But a moment's reflection convinced her that no art of hers could induce the dying woman to think evil of the excellent girl she herself had educated. That on the contrary, such a step might possibly result in her own signal defeat and exposure, and the everlasting anger and contempt of Archer Clifton. Her brain was beginning to reel, and her self-confidence to wane. In sudden fear she looked around for the forged letter, intending to burn it. It was nowhere to be seen. Then she recollected that Major Clifton had, on departing, picked it up, and put it in his pocket. And sick with disappointed love, jealousy, hatred, fear, she tethered towards a lounge, but ere she reached it, fell upon the floor: In the meanwhile, Major Clifton, sitting

in the Holy Communion, while he looked on with surprise, mixed with a degree of horror. When the sacrilegious rite was over, the minister of God took an affectionate leave, and departed. When the minister was gone, and they were left alone together, the dying mother beckoned her son and daughter to come and sit near her. They obeyed her, and she addressed them in a few words of earnest, affectionate counsel, blessed them, and resigned herself to rest. Her eyelids closed calmly, and her breathing was gentle and regular; they had to mark attentively before they knew that it grew fainter and fainter. Once she opened her eyes, and, smiling her of reflecting smile, said—

"Dear Archer, I have often tried to detect the exact moment of falling asleep. I watch now, to see if I can seize the precise instant of passing from mortal to immortal life."

And she closed her eyes again. After a few minutes, she said—

"Sing to me, dear Kate! You know—Heber's death hymn."

Catherine bent and kissed the palid lips of the dying woman, and then her voice arose, sweet, clear and spiritual as angel's songs, in that immortal requiem—

"Vital spark of heavenly flame: Quit, oh! quit this mortal frame; Trembling, hoping, ling'ring, flying, Oh! the pain, the bliss of dying— Hark! they whisper, angels say— Sister spirit, come away—"

At the end of the first stanza, she murmured, faintly—

"Your voice, too, dear Archer."

His voice arose now in unison with Catherine's and they sang the remainder—

"The world recedes—it disappears; Heaven opens on my eyes; my ears With sounds seraphic ring. Lend, lend your wings; I mount, I fly! Oh, grave, where is thy victory? Oh, death, where is thy sting?"

They ceased, and looked upon the marbled face before them. It was still in death, but there remained upon the countenance the impress of the ecstatic smile with which the spirit had taken its flight—

"Her death. Was like the setting of a planet mild."  
(To be continued.)

A clever Irishman has done a good stroke of business in Chicago. He advertised his preparedness to renovate old and rancid butter by a secret process, but would only handle large quantities. Some dealers, to test him, sent him a lot which, according to promise, was made the equal of fresh creamery butter, and stood the test of keeping. They then sent agents all over the State, purchased heavily, and sent the stuff to him. To their horror he declined to operate on it, but as a special favour offered to buy it at considerably less than they had paid for it. Being of no use to them they had to let him have it at a loss, and then he converted it, to his own double profit and immense saving of trouble.

OUTWITTED.—Among the hill tribes of the Anglo-Indian frontier cunning is quite as highly esteemed as personal prowess, but even these masters of stratagem are occasionally out-witted. A Hindoo trader, who had occasion to pass through their country recently, laid out all his money in several large diamonds, which he bound round his head with a soiled rag, made to look like the bandage of a wound. He then put on his raggedest clothes, and loaded a donkey with loaves of spiced bread, such as the mountaineers like, putting a good dose of opium in each. He soon fell in with half a dozen brigands, who paid no attention to the ragged traveller, but pounced upon the bread and ate the whole of it. The opium soon put them to sleep, whereupon the traveller took what money they had, their arms and the best of their clothes, and went his way in peace. But he took good care not to travel that road again.

me. A few minutes before I had left Dr. Brooks "tick unto death"—so weak, oppressed, as distressed; laboring for breath; talking in disjointed utterances; but recently aroused, as I had been told, from a sinking spell, which it was feared would have been his last. And now, in tones as clear, as distinct, as well-enunciated as I ever heard from him in the pulpit when in health, and yet minimized by that strange, weird, thrilling, telephonic modification—preserving all that is characteristic in the speech of an individual, and at the same time giving the impression of almost infinite distance—came the triumphant exclamation:

"Thanks be to God, who giveth us the victory through our Lord Jesus Christ!" I could but fancy that, during my absence, he had, beside the silver cord that had been his, the golden bowl broken, and that exultant "Thanks be to God!" was the outburst of the freed spirit. And when I returned to his room and found him in the flesh, I felt like one who was meeting him whom he had the last seen—Christ in leader.

Recovery of A. T. Stewart's Remains.

George Hamill, sexton of St. Mark's Church, was Stewart's undertaker. Early this week, Francis Parker, assistant sexton, discovered that the vault slab had been tampered with; the stone at the head of the vault had been removed and taken away from its position, and the earth had several feet under the slab. As the slab was not over the opening of the vault, however, the thieves had been disappointed. Hamill reported the occurrence to Judge Hilton. A consultation was held as to the best means of guarding the vault. At Hamill's suggestion, the mounting the vault was removed, and a watchman was placed in position to guard the vault. A watchman was also engaged and he patrolled the vault every night until a few days ago. Hamill was in the churchyard at 5 p. m. of Wednesday and noticed nothing. When the sexton came to the churchyard on Thursday morning he saw that the vault had been disturbed. The thieves had been deceived by the position of the slab, but had begun directly over the opening to the vault. He went after Hamill, who discovered that Stewart's body had been stolen. The thieves had opened the strong outer box, and had taken the top one side; they had then entered the lead box with a knife, and had taken the silver plate of the inner coffin, and taken of the top. The body had been removed with all the clothing. The fact of the robbery is surprising. The thieves must have watched the movements of the police closely to avoid being seen. They must have known that the watchman had been deceived by the same furnishers as the thieves may yet be discovered. The family says the thieves will be offered a reward for the return of the body. Judge Hilton does not think professional thieves or burglars are likely to do with the dead. He is willing to implicate the sexton and his assistant, but says they are the only persons who take himself who come accurately locate the opening of the vault and dig directly over it. Mr. Hamill, of the firm of A. T. Stewart & Co., states that \$100,000 will be given, if need be, for the detection and punishment of the thieves who stole Mr. Stewart's body, and a thousand will be paid to the sexton for the return of the body. The sexton of St. Mark's Church is of opinion that the body retained much of its old form, though certainly decomposed. The fact that the time of death was embalmed, and intended to place it in a crypt in the cathedral at Garden City, is a fact that appears utterly far-fetched as to the perpetration of the robbery. The detectives are scouring every precinct in the city since the alarm has been sent out, and all approaches to the city are carefully guarded, but so far without result.

## THE EXPRESS.

NAPANEE, NOV. 15, 1878.

—Lord Dufferin met with a most cordial reception from the citizens of Belfast, on his return home.

—Hawdon, a noted English oarsman, has been matched to row with Hanlan over the Tyne course, next May, for \$1,000 a side.

—Lord Beaconsfield has stated in a public speech that the peace of Europe was assured, and that the Treaty of Berlin would be observed by all the signatory powers. This has had the effect of quieting the fears of an open rupture between Russia and England.

—A protest has been filed against Mr. Tilley's return, and it is not at all improbable that the Finance Minister may yet get a notice to quit St. John as Sir John did in Kingston. Marquette and a few other pocket boroughs are always at the disposal of the chieftain, so no hitch may be feared.

—The Prince Edward Election has been protested, on the ground of bribery and other unlawful acts, and the Liberals feel confident that the seat will be declared vacant, and a check placed on the "old war horse," which will put a quietus on his aspirations for political honors.

—Dr. Hartley has been dealing out some of his hard knocks against the liquor traffic in Ottawa. He denounces drinking in high places, and the example set by drunken politicians, and declared they must be "swept off the boards" by a healthy public sentiment, and by Christians voting as they pray.

—\$25,000 reward has been offered for the discovery of the parties who stole the remains of the late A. T. Stewart. The executors state that not one cent will be paid for the recovery of the remains without the

—The Bay of Quinte Conference of the M. E. Church have long felt the necessity of erecting a new church in the central part of the capital, in order to keep pace with rival societies. It is announced that a desirable location has been secured on the corner of Metcalfe and Gloucester street, and that next spring a new edifice will be erected thereon at a cost of \$30,000.

—The following is a sample of the promises which Sir John scattered throughout the Dominion to bribe the electors into his National Policy trap: "If the Conservatives gained the election there would be a return of confidence at once, and even before a new tariff could be introduced the manufacturers would have such hopes for the future that they would be employing more men, circulating money, and increasing their business, all of which would reflect beneficially on the farming community." How has this promise been verified. Stagnation in business reigns throughout the Dominion; the price of farmers produce has been on a steady decline almost from the very day the Conservative victory is announced; and the prospect for the laboring classes during a long and severe winter, is gloomier than ever.

## THE CONSERVATIVE CANDIDATE FOR THE LOCAL.

After several ineffectual attempts to drum up a satisfactory crowd, the Conservatives succeeded in getting together a Convention on Saturday last, to name a local candidate. Although the meeting was numerically a success many prominent members of the party who would like to see the farming community fairly represented in the Legislature of the Province, were dissatisfied at the apparent desire of interested parties to manipulate the convention in interests of some Napanee aspirants.

At an early stage of the meeting an attempt was made to have the business of the meeting postponed, and a selection made of representatives from each polling division, based on the number of voters in each township, with power to name the party candidate. This very fair proposition was however over-ruled, after a very stormy debate, and the selection of the candidate was proceeded with.

Even before the convention it was pretty generally understood, that the choice lay between A. H. Roe and John T. Grange, Esq., the present member. While the former is acknowledged to have the most ability, the majority of the convention were not prepared to shoulder the burden of his past history, so the latter has been honored with the choice.

Of Mr. Grange, it is unnecessary for us to say much at the present time. Every elector in Lennox who knows the gentleman, and who has had half an eye to the proceedings in the Legislature, is aware that as a representative he don't amount to much either way; and those who do not know him, will have ample opportunity to arrive at the same conclusion before the end of the campaign. So far as representation is concerned, Lennox has been practically unrepre-

## A Temperance Lecturer in Trouble.

Rev. Mr. Haskell has for some time been engaged in talking temperance, and to make the old story attractive has been in the habit of indulging in pointed illustrations, of a local character. But he has run against a snag up at Chatham. The hotel keepers up there are evidently not as civilized as they are in some parts of the world, and when Mr. Haskell declared that the "Royal Exchange Hotel, of that place stank of whiskey from cellar to garret," the proprietor, a Mr. Samuel Perrin, got on his muscle, and resolved to give Mr. Haskell a lesson in bar-room ethics. Accordingly he laid for his man the next morning until he came from the Rutley House, which he did about ten o'clock, in company with Mr. Warren Martin. When they met, Perrin asked Mr. Haskell if he had used any expression defamatory to his house, and more especially one similar to that quoted above. Mr. Haskell replied that he had. The words were scarcely out of his mouth before Perrin struck him a blow in the face, knocking him down, and while in that position he struck him three or four blows on the face and head, besides kicking him. Perrin has been fined \$15 and costs, and now asserts that he will sue Haskell for defaming his house. The end does not seem to be yet.

## Items of Presbyterian History.

We clip the following letter from the column of the *Canada Presbyterian*. It will doubtless interest many of our older readers, who will remember the subject of the letter, and his unremitting labors in this and adjoining counties. "MR. EDITOR,—I have noticed, with great interest, the recent communications in your esteemed paper on "Early Presbyterian History in Canada," and herewith contribute some items that may prove interesting with reference to my grandfather, the late Rev. Robert McDowall, the pioneer of our church in this country. There seems to be now very insufficiently data to draw from. The old homestead in Fredericksburgh was unfortunately burned about two years ago, and with it nearly all his posthumous writings and books. The two sons, John and Ebenezer, who were both in the ministry, the former in New York City, the latter in Michigan, have long since been called to their rest. The only daughter, Mrs. Carpenter, is now living in the State of New Hampshire.

I have as a legacy from my father the late James A. McDowall, a good sized volume entitled, "A registry of marriages in the Province of Upper Canada celebrated by the Rev. Robert McDowall, minister of the united congregations of the Ernestown, Fredericksburgh and Adolphustown." Reversed, it is inscribed, "A registry of Baptisms," etc., as above. The former contains 752 entries of marriages from 1800 to 1824; an omission then occurs from Feb., 1822, to April, 1831, a loss of over nine years' record. Presuming that the last year preceding the omission, with the first following would indicate the average during the intervening years, we would have 240 to add to the above. From 1831 to 1833 I find recorded 118 marriages, which would make the number to that date 1110. I find no record for the remaining five years of his ministry, which was active to within a few days of his death. He preached his last sermon in Kingston only two weeks previous to that event. If we had his registry completed, it is scarcely probable that any other minister of the Church could show so many marriage celebrations. The record of baptisms seems also to be incomplete. It contains, however, 1538 entries.

The Registry is classified as follows:

## Mill Haven.

On Thursday evening, 7th 1878, the following officers met at the Mill Haven, No. 105, I. C. were duly elected and installed. McLaughlin, W. C. T., Bro. H. A. W. V., Bro. Benjamin G. Bro. John Fleming, W. F., W. Chaplain, Sir H. Rodger, Bro. Otis Guage, W. M., Mott, J. G., Bro. George Armistead, Bro. John Fleming, Lodg. This Lodge intends sending a gates to Grand Lodge to be Napanee on 20th Nov., 1878.

## The Consumptive's Pain.

"Go to Colorado! It is a paradise for Consumptives! Consumption cannot exist in that climate who go there even in the last stage of the disease, after a residence of a few months, come away perfectly cured. I tell you a dose of Colorado best remedy for consumption covered." Such are some of the lavish upon Colorado as a consumptives, and only prove grossly ignorant these special writers are of the real nature of the disease. If we were not personally acquainted with some of their pre-knowledge, we should suspect that they had been "roped" into an advertisement to augment the price and salarado lands, or were working in the interests of some Colorado hot Persons suffering from a mere inflammation of the lung tissue are often completely restored by residence in Colorado or Florida when scrofulous matter has accumulated in the lungs, no climate ever healthful, can alone effect a thorough course of medical treatment is required, aided by such hygienic measures as the condition of the patient permit. The scrofulous matter absorbed and expelled from the body by the use of efficient alterative, Pierce's Golden Medical Discovery, powerful alterative, and, aided Pleasant Purgative Pills, is a valuable agent for expelling scrofula from the lungs and system. Dr. Invalid's Hotel, at Buffalo, offers special advantages to his patients. The best methods of and hygienic treatment are used, besides the locality is one few which enjoys special immunity from this disease.

## A Good Horse.

"There is much pleasure and the service of a good horse, and little of either in a bad one; from choice will retain a bad many, however, are in possession who need not be. We think a few horses so bad but that their can be improved and rendered valuable and useful for their effect which, there is nothing." "Darley's Condition Powder Arabian Heave Remedy; it has astonishing results in thousands. Remember the name and see signature of Hurd & Co. is package. Northrop & Lyman, Ont., proprietors for Canada. All medicine dealers.

HEALTH IS STRENGTH.—To conquer disease is one of the attainments ever aimed at by a "Bryan's Pulmonic Wafers" will cure coughs, colds, tickling in the and pulmonary complaints, as pestilence will destroy. Severe not attended to, sooner or later incurable consumption, and the of the strongest soon fails if the The readiest and best means for the cure of these complaints is "Pulmonic Wafers," which has thoroughly tried for the last

oarsman, has been matched to Hanlan over the Tyne course, next May, for \$1,000 a side.

—Lord Beaconsfield has stated in a public speech that the peace of Europe was assured, and that the Treaty of Berlin would be observed by all the signatory powers. This has had the effect of quieting the fears of an open rupture between Russia and England.

—A protest has been filed against Mr. Tilley's return, and it is not at all improbable that the Finance Minister may yet get a notice to quit St. John as Sir John did in Kingston. Marquette and a few other pocket boroughs are always at the disposal of the chieftain, so no hitch may be feared.

—The Prince Edward Election has been protested, on the ground of bribery and other unlawful acts, and the Liberals feel confident that the seat will be declared vacant, and a check placed on the "old war horse," which will put a quietus on his aspirations for political honors.

—Dr. Hartley has been dealing out some of his hard knocks against the liquor traffic in Ottawa. He denounces drinking in high places, and the example set by drunken politicians, and declared they must be "swept off the boards" by a healthy public sentiment, and by Christians voting as they pary.

—\$25,000 reward, has been offered for the discovery of the parties who stole the remains of the late A. T. Stewart. The executors state that not one cent will be paid for the recovery of the remains without the disclosure of the villains who committed the desecration.

—Among the incidents of the contest in Centre Huron, we find the following going the rounds of our exchanges:—"One of Mr. Cartwright's 'noisiest opponents was Mr. A.H. Roe, 'of Napanee, but he met his match in 'a Mr. McGillicuddy, of the Brussels Post, who dressed him down at a 'meeting as he had never been dressed 'before.' Our readers, who know the gentleman, can readily fancy of what material that 'dress' was composed, and will conclude that he 'didn't get a clip amiss.'"

—Hon. Ed. Blake returned home from Europe last week, and it is said that his health has been greatly improved. It is to be sincerely hoped that he will be prevailed upon to again enter parliament, and that provisions will at once be made to give him a seat, for with Mackenzie, Blake, and Cartwright in opposition, the government, no matter how strong in numbers, dare not swerve far from the path of rectitude nor deviate from the principles of good government. It is all important that Mr. Blake should have a seat in the next Parliament.

—Mr. Tilley is off to England to borrow money, and it is said that no less than \$20,000,000 is the object of his mission. The leading financiers of Sir John's party were always harping on Mr. Cartwright's loans as instances of unparalleled bungling—it remains to be seen how much better Mr. Tilley will do. The government press are already making all sorts of excuses as a soft bed for their Finance Minister's failure to fall upon, so it seems they have not the same confidence they had in the previous administration. Time will solve

name a local candidate. Although the meeting was numerically, a success many prominent members of the party who would like to see the farming community fairly represented in the Legislature of the Province, were dissatisfied at the apparent desire of interested parties to manipulate the convention in interests of some Napanee aspirants.

At an early stage of the meeting an attempt was made to have the business of the meeting postponed, and a selection made of representatives from each polling division, based on the number of voters in each township, with power to name the party candidate. This very fair proposition was however over-ruled, after a very stormy debate, and the selection of the candidate was proceeded with.

Even before the convention it was pretty generally understood, that the choice lay between A. H. Roe and John T. Grange, Esq., the present member. While the former is acknowledged to have the most ability, the majority of the convention were not prepared to shoulder the burden of his past history, so the latter has been honored with the choice.

Of Mr. Grange, it is unnecessary for us to say much at the present time. Every elector in Lennox who knows the gentleman, and who has had half an eye to the proceedings in the Legislature, is aware that as a representative he don't amount to much either way; and those who do not know him, will have ample opportunity to arrive at the same conclusion before the end of the campaign. So far as representation is concerned, Lennox has been practically unrepresented in the Legislature of the Province for the past few years. If Mr. Grange has done no good, however, he has certainly done little harm, beyond the mere voting against every progressive measure of the Government. We can only say that as a politician, John T. Grange, Esq., is a complete nonentity, and will never turn the world over for good or evil. We believe the electors of Lennox are ripe for a change, and they will make the change when polling day arrives.

There is only one official act of the gentleman which we will at present refer to—the part he played in the notorious "salary grant." Like most men who do very little actual work, he evidently places a very high price upon his services. He was one of those M.P.'s who considered \$600 too small pay for three month's work, so he circulated a "round robin" among the members, asking the government to increase the "indemnity" to \$800. Of course it is all right for Mr. Grange and his organ now to turn round and condemn Mr. Mowatt for having (much against his inclination, we may say) complied with the almost unanimous request of the House. But such conduct might be considered by some people to be gross ingratitude, or hypocrisy. There will be plenty of time for the people to investigate the matter before the contest comes on, and we doubt not, when the cry of "increase in the cost of government" is brought up, the conspicuous part played by Mr. Grange in the "salary grab," will receive a just scrutiny.

As to the date the contest is likely to take place, there is nothing definitely known. The last annual session will not be opened till after the holidays, and it will be well along towards spring before the business can be completed.

communications in your esteemed paper on "Early Presbyterian History in Canada," and herewith contribute some items that may prove interesting with reference to my grandfather, the late Rev. Robert McDowall, the pioneer of our church in this country. There seems to be now very insufficiently data to draw from. The old homestead in Fredericksburgh was unfortunately burned about two years ago, and with it nearly all his posthumous writings and books. The two sons, John and Ebenezer, who were both in the ministry, the former in New York City, the latter in Michigan, have long since been called to their rest. The only daughter, Mrs. Carpenter, is now living in the State of New Hampshire.

I have as a legacy from my father the late James A. McDowall, a good sized volume entitled, "A registry of marriages in the Province of Upper Canada celebrated by the Rev. Robert McDowall, minister of the united congregations of the Ernestown, Fredericksburgh and Adolphustown." Reversed, it is inscribed, "A registry of Baptisms," etc., as above. The former contains 752 entries of marriages from 1800 to 1824; an omission then occurs from Feb., 1822, to April, 1831, a loss of over nine years' record. Presuming that the last year preceding the omission, with the first following would indicate the average during the intervening years, we would have 240 to add to the above. From 1831 to 1835 I find recorded 118 marriages, which would make the number to that date 1110. I find no record for the remaining five years of his ministry, which was active to within a few days of his death. He preached his last sermon in Kingston only two weeks previous to that event. If we had his registry completed, it is scarcely probable that any other minister of the Church could show so many marriage celebrations. The record of baptisms seems also to be incomplete. It contains, however, 1538 entries.

The Registry is classified as follows: Ernestown, Fredericksburgh, Sophiasburgh, Adolphustown, Camden, Marysburgh, Hallowell, Richmond, Pittsburg, Cramale, Anclaburgh, Sidney, Thurlow, Hamilton, Rawdon, Amherst Island, Tyendinaga, Loughboro, Murray, Kingston, Sheffield, Portland, Plainsfield, Belleville. He made long journeys on on horseback and on foot, often preferring the latter mode—travelling the Bay of Quinte by canoe. The oldest surviving inhabitants relate many interesting incidents of his ministry in this district. In many places he travelled through an unbroken wilderness, relying on friendly Indians as guides. Mrs. Carpenter, writing of him, says: "I remember hearing him say that he let his horse drink from the River Thames in London," indicating that his missionary labors extended at least that far west.

He was born 25th July, 1768, at Ballstown, N. Y., ordained in the Reformed Dutch Church at Albany, came to Canada 1796, married December, 1800, at Pictou, to Hannah, daughter of Ebenezer Washburn (a U. E. Loyalist), and Sister of the Hon. Simeon Washburn. Died 3rd August, 1841. His remains are interred in the old church, in South Fredericksburgh.

ROBERT J. McDOWALL.  
Demorestville, 30th Sept. 1878.

#### A Sensation, Truly.

Mollie Francher in Brooklyn's latest sensation. For thirteen years she has been an invalid, and during all that time no solid food has passed her lips, and liquids she had taken at infrequent intervals are insufficient to maintain life. The most baffling fact about her case is that she exists, and with enough vitality of mind and body to make her an interesting and even beautiful person, without the ordinary processes of digestion and assimilation of food. She never sleeps, but has occasional trances that seem to refresh her. So much for her physiologically; now for the psychologically phenomena she presents. Though blind in the natural sense, she possesses a second-sight or some faculty of vision: She makes wax flowers of delicate beauty

**CHEAP FOR CASH**

An invitation is extended to a faction g

"a Mr. McGillicuddy, of the *Post*, who dressed him down at a "meeting as he had never been dressed "before." Our readers, who know the gentleman, can readily fancy of what material that "dress" was composed, and will conclude that he "didn't get a clip amiss."

—Hon. Ed. Blake returned home from Europe last week, and it is said that his health has been greatly improved. It is to be sincerely hoped that he will be prevailed upon to again enter parliament, and that provisions will at once be made to give him a seat, for with Mackenzie, Blake, and Cartwright in opposition, the government, no matter how strong in numbers, dare not swerve far from the path of rectitude nor deviate from the principles of good government. It is all important that Mr. Blake should have a seat in the next Parliament.

—Mr. Tilley is off to England to borrow money, and it is said that no less than \$20,000,000 is the object of his mission. The leading financiers of Sir John's party were always harping on Mr. Cartwright's loans as instances of unparalleled bungling—it remains to be seen how much better Mr. Tilley will do. The government press are already making all sorts of excuses as a soft bed for their Finance Minister's failure to fall upon, so it seems they have not the same confidence they had while in opposition. Time will solve the problem.

—The first fruits of the National Policy are appearing. The *Monetary Times* makes the following announcement:—"It is reported that the cotton manufacturers of the Cornwall, Hochelaga and Dundas mills have recently advanced the price of grey cottons about 17 1/2 per cent and white cottons about 10 per cent, while the same class of goods are said to have been reduced fifteen per cent. in the United States. We are also advised, that Canadian woollen manufacturers are shading prices on orders from wholesale dealers for spring goods." The goods which the farmers have to buy are rising in price almost from the very day the National Policy was adopted, while from that very same date the price of agricultural produce commenced to rapidly decline. That is "Canada for Canadians."

—The importance to the country of having an able financier in the Opposition ranks during the next Parliament is generally admitted, and from one end of the Dominion to the other, the Hon. R. J. Cartwright is the man who is acknowledged to be most fitted to assume the duty of criticizing the new measures which the government announce they are about to bring forward. From the North West comes the latest tribute to the ex-Finance Minister's ability. The *Manitoba Free Press* of the 2nd inst., says:—"It is extremely desirable that that Mr. Cartwright should be in his place in the House during the coming session, as there is probably no man in Canada more thoroughly acquainted with the financial status and requirements of the country, and he will prove a competent critic on the new Finance Minister."

good or evil. We believe the electors of Lennox are ripe for a change, and they will make the change when polling day arrives.

There is only one official act of the gentleman which we will at present refer to—the part he played in the notorious "salary grant." Like most men who do very little actual work, he evidently places a very high price upon his services. He was one of those M.P.'s who considered \$600 too small pay for three month's work, so he circulated a "round robin" among the members, asking the government to increase the "indemnity" to \$800. Of course it is all right for Mr. Grange and his organ now to turn round and condemn Mr. McGowatt for having (much against his inclination, we may say) complied with the almost unanimous request of the House. But such conduct might be considered by some people to be gross ingratitude, or hypocrisy. There will be plenty of time for the people to investigate the matter before the contest comes on, and we doubt not, when the cry of "increase in the cost of government" is brought up, the conspicuous part played by Mr. Grange in the "salary grab," will receive a just scrutiny.

As to the date the contest is likely to take place, there is nothing definitely known. The last annual session will not be opened till after the holidays, and it will be well along towards spring before the business can be completed. This will defer the election till May at least, and the Ministry are at liberty to bring on the contest at any time during the summer, to suit the convenience of themselves and the country. We may just say they would be foolish indeed, to allow themselves to be "bull-dozed" by the opposition press into bringing on the elections one day sooner than will suit the convenience of themselves and the people.

#### THE NEW GOVERNOR-GENERAL.

The Marquis of Lorne, and Princess Louise were expected to sail from Liverpool per Allan Steamer *Sarmatian* yesterday. Extensive preparations are being made for the reception of the Vice-Royal pair on their arrival at Halifax, and the programme which will include a naval spectacle rarely witnessed in Canada, has been fully arranged. The fleet under the command of Vice-Admiral Inglefield will go out to meet the *Sarmatian* at sea and escort her up the harbor. The *Sarmatian* will fly the royal standard, and on the fleet coming up with her a royal salute will be fired. The fleet will then form into two lines, led by the *Bellerophon* flagship and *Black Prince*, and accompany the *Sarmatian* up the harbor, the forts saluting as she passes. She will anchor off the dockyard, the ships of the fleet anchoring in double line, and when the time for landing (which will probably be about half-past one) arrives, the Marquis of Lorne and Princess Louise will embark under a royal salute on board the Admiral's barge. A procession will then be formed by the ships' boats, and will pass down between the double line of men-of-war to the landing stage at the dockyard, where the various authorities will be in waiting to receive the illustrious personages.

incidents of his ministry in this district. In many places he travelled through an unbroken wilderness, relying on friendly Indians as guides. Mrs. Carpenter, writing of him, says, "I remember hearing him say that he let his horse drink from the River Thames in London," indicating that his missionary labors extended at least that far west.

Simeon Washburn. Died 3rd August, 1841. His remains are in the old church, in South Fredericksburgh.

ROBERT J. McDOWALL.

Demorestville, 30th Sept. 1878.

#### A Sensation, Truly.

Mollie Francher in Brooklyn's latest sensation. For thirteen years she has been an invalid, and during all that time no solid food has passed her lips, and liquids she had taken at infrequent intervals are insufficient to maintain life. The most baffling fact about her case is that she exists, and with enough vitality of mind and body to make her an interesting and even beautiful person, without the ordinary processes of digestion and assimilation of food. She never sleeps, but has occasional trances that seem to refresh her. So much for her physiologically; now for the psychological phenomena she presents. Though blind in the natural sense, she possesses a second-sight or some faculty of vision. She makes wax flowers of delicate beauty of form and color. She seems possessed also of the faculty which is termed, "mind reading," and this faculty appears sometimes to transcend the usual limitations of the term, in her consciousness of persons or animals not immediately present. Impressions of coming events are sometimes strangely vivid. A scientific commission is about to undertake an investigation of her case.

#### Catarrh.

A writer for the *Tribune* says that this disease is curable, if the sufferer will persist in using the following:—"The remedy is crushed cubeb berries smoked in a pipe, emitting the smoke through the nose; after a few trials this will be easy to do. If the nose is stopped up so that it is impossible to breathe, one pipeful will make the head as clear as a bell. For sore throat, asthma, bronchitis, swallowing the smoke effects immediate relief. It is the best remedy in the world for offensive breath, and will make the foulest of breath pure and sweet. Sufferers from the most horrible disease, ulcerated catarrh, will find this remedy to be unequalled, and a month's use will cure the most obstinate case. A single trial will convince any one. Eating the uncrushed berries is also good for sore-throat and all bronchial complaints. After smoking do not expose yourself to cold air for at least fifteen minutes. The berries are perfectly harmless, and there is no use going to catarrh doctors while you can procure this remedy. They can be procured at any drug store, and you can crush them yourself."

THE PAIN-KILLER.—We have known the high character of this medicine, and that it is used with great success and satisfaction in our very best families. It is the favorite medicine of our missionaries in heathen lands, where they use it more than all else together for the diseases that abound in those warm climates. It should be kept in every house, and be in readiness for sudden attacks of sickness. — *Christian Press*.

**A Temperance Lecturer in Trouble.**

Rev. Mr. Haskell has for some time been engaged in talking temperance, and to make the old story attractive has been in the habit of indulging in pointed illustrations, of a local character. But he has run against a snag at Chatham. The hotel keepers up there are evidently not as civilized as they are "in some parts of the world, and when Mr. Haskell declared that the "Royal Exchange Hotel, of that place stank of whiskey from cellar to garret," the proprietor, a Mr. Samuel Perrin, got on his muscle, and resolved to give Mr. Haskell a lesson in bar-room ethics. Accordingly he laid for his man the next morning until he came from the Rutley House, which he did about ten o'clock, in company with Mr. Warren Martin. When they met, Perrin asked Mr. Haskell if he had used any expression defamatory to his house, and more especially one similar to that quoted above. Mr. Haskell replied that he had. The words were scarcely out of his mouth before Perrin struck him a blow in the face, knocking him down, and while in that position he struck him three or four blows on the face and head, besides kicking him. Perrin has been fined \$15 and costs, and now asserts that he will sue Haskell for defaming his house. The end does not seem to be yet.

**Item of Presbyterian History.**

We clip the following letter from the column of the *Canada Presbyterian*. It will doubtless interest many of our older readers, who will remember the subject of the letter, and his unremitting labors in this and adjoining counties. "MR. ELLIOT,— I have noticed, with great interest, the recent communications in your esteemed paper on "Early Presbyterian History in Canada," and herewith contribute some items that may prove interesting with reference to my grandfather, the late Rev. Robert McDowall, the pioneer of our church in this country. There seems to be now very insufficiently data to draw from. The old homestead in Fredericksburgh was unfortunately burned about two years ago, and with it nearly all his posthumous writings and books. The two sons, John and Ebenezer, who were both in the ministry, the former in New York City, the latter in Michigan, have long since been called to their rest. The only daughter, Mrs. Carpenter, is now living in the State of New Hampshire.

I have as a legacy from my father the late James A. McDowall, a good sized volume entitled, "A registry of marriages in the Province of Upper Canada celebrated by the Rev. Robert McDowall, minister of the united congregations of the Ernestown, Fredericksburgh and Adolphustown." Reversed, it is inscribed, "A registry of Baptisms," etc., as above. The former contains 752 entries of marriages from 1800 to 1824; an omission then occurs from Feb., 1822, to April, 1831, a loss of over nine years' record. Presuming that the last year preceding the omission, with the first following would indicate the average during the intervening years, we would have 240 to add to the above. From 1831 to 1835 I find recorded 118 marriages, which would make the number to that date 1110. I find no record for the remaining five years of his ministry, which was active to within a few days of his death. He preached his last sermon in Kingston only two weeks previous to that event. If we had his registry completed, it is scarcely probable that any other minister of the Church could show so many marriage celebrations. The record of baptisms seems also to be incomplete. It contains, however, 1538 entries.

The Registry is classified as follows;

**Mill Haven.**

On Thursday evening, November 7th 1878, the following officers of Palmarston Lodge, No. 105, I. O. G. T. were duly elected and installed. Bro. J. McLain, W. C. T., Bro. H. Armstrong, W. V. T., Bro. Benjamin Guage, W. S., Bro. John Fleming, W. F. T., Sis. Ham, W. Chaplain, Sis. H. Rodgers, W. T., Bro. Otis Guage, W. M., Bro. Fred Mott, J. G., Bro. George Armstrong, O. G., Bro. John Fleming, Lodge Deputy. This Lodge intends sending two delegates to Grand Lodge to be held in Napanee on 26th Nov., 1878.

**The Consumptive's Paradise.**

"Go to Colorado! It is a perfect Arcadia for Consumptives! Consumption cannot exist in that climate. People who go there even in the last stages of the disease, after a residence of only a few months, come away perfectly restored. I tell you a dose of Colorado is the best remedy for consumption ever discovered." Such are some of the praises lavished upon Colorado as a resort for consumptives, and only prove how egregiously ignorant these speakers and writers are of the real nature of the disease. If we were not personally acquainted with some of their praisers and know them to be honest, well-meaning people, we should suspect that they had been "roped" into an advertising scheme, to augment the price and sale of Colorado lands, or were working in the interests of some Colorado hotel-keeper. Persons suffering from a mere inflammation of the lung tissue are doubtless often completely restored by a brief residence in Colorado or Florida. But when scrofulous matter has begun to accumulate in the lungs, no climate, however healthful, can alone effect a cure. A thorough course of medical treatment is required, aided by such hygienic measures as the condition of the patient will permit. The scrofulous matter must be absorbed and expelled from the system by the use of efficient alteratives. Dr. Pierce's Golden Medical Discovery is a powerful alterative, and, aided by the Pleasant Purgative Pellets, is an invaluable agent for expelling scrofulous matter from the lungs and system. Dr. Pierce's Invalid's Hotel, at Buffalo, N. Y., offers special advantages to his class of patients. The best methods of medical and hygienic treatment are there pursued, besides the locality is one of the few which enjoys special immunity from this disease.

**A Good Horse.**

"There is much pleasure and profit in the service of a good horse, and but very little of either in a bad one;" no person from choice will retain a bad horse; many, however, are in possession of such who need not be. We think there are few horses so bad but that their condition can be improved and rendered more valuable and useful for their owners, to effect which, there is nothing equal to "Darley's Condition Powders and Arabian Heave Remedy; it has effected astonishing results in thousands of cases. Remember the name and see that the signature of Hurd & Co. is on each package. Northrop & Lyman, Toronto, Ont., proprietors for Canada. Sold by all medicine dealers.

**HEALTH IS STRENGTH.**—To prevent or conquer disease is one of the grandest attainments ever aimed at by men, and "Bryan's Pulmonic Wafers" will as sure cure coughs, colds, tickling in the throat and pulmonary complaints, as war and pestilence will destroy. Severe colds, if not attended to, sooner or later lead to incurable consumption, and the strength of the strongest soon fails if neglected. The readiest and best means known for the cure of these complaints is "Bryan's Pulmonic Wafers," which have been thoroughly tried for the last twenty

**New Departure!**

**IMPORTANT**

**To the PUBLIC!**

CANADA has a brand new government, or rather the "old skirt" turned till it looks as good as new; the Dominion is about to be honored with a sprig of royalty for a Governor and "Governess;" Lennox has a new representative in the Parliament of Canada, and we are entering upon a contest in which a strong attempt will be made to put in a new man as our representative in the Ontario Legislature; and, as a person might as well be "out of the world as out of the fashion," I have decided to make a new departure in the management of my business. Therefore

**READ AND LEARN!**

I have for the past few years been a close observer of the different styles of doing business, and the success or failures which have attended each system, and I have become convinced that there is one, and only one, method which will ensure satisfaction to the large class of consumers, and at the same time give a fair remuneration for the labor of the merchant.

**The Old Credit System**

has been in vogue in this country ever since Canada was discovered, and during that period the mercantile business has been attended with more than a fair share of troubles and losses, and it is patent to all who have been engaged in business, that the instances of success are rare indeed. Especially is this so in these latter days of keen competition. Merchants have long since discovered that the credit system was the ruin of traders, but the custom was apparently so deeply rooted in our community that a strictly cash business has been considered to be an impossibility. A few bold spirits, or perhaps individuals who were forced by circumstances to adopt the

**CASH SYSTEM,**

have here and there broken the ice, and contrary to the prediction of many, the instances of failure among those dealers are much smaller in proportion than under the old plan. It was asserted that people would buy only where they could get credit, that the great body of consumers were not able or willing to pay cash for their supplies, but the experience of those who have ventured on the new system have already shown that the people themselves were

Belleville, He made long journeys as on horseback and on foot, often preferring the latter mode—traversing the Bay of Quinte by canoe. The oldest surviving incidents of his ministry in this district. In many places he travelled through an unbroken wilderness, relying on friendly Indians as guides. Mrs. Carpenter, writing of him, says; "I remember hearing him say that he let his horse drink from the River Thames in London," indicating that his missionary labors extended at least that far west. He was born 25th July, 1708, at Ballstown, N. Y., ordained in the Reformed Dutch Church at Albany, came to Canada 1796, married December, 1800, at Pictou, to Hannah, daughter of Ebenezer Washburn (a U. E. Loyalist,) and Sister of the Hon. Simeon Washburn. Died 3rd August, 1841. His remains are interred in the old church, in South Fredericksburgh.

ROBERT J. McDOWALL.  
Demorestville, 30th Sept. 1878.

#### A Sensation, Truly.

Mollie Francher in Brooklyn's latest sensation. For thirteen years she has been an invalid, and during all that time no solid food has passed her lips, and liquids she had taken at infrequent intervals are insufficient to maintain life. The most baffling fact about her case is that she exists, and with enough vitality of mind and body to make her an interesting and even beautiful person, without the ordinary processes of digestion and assimilation of food. She never sleeps, but has occasional trances that seem to refresh her. So much for her physiologically; now for the psychologically phenomena she presents. Though blind in the natural sense, she possesses a second sight or some faculty of vision. She makes wax flowers of delicate beauty of form and color. She seems possessed also of the faculty which is termed, "mind reading," and this faculty appears sometimes to transcend the usual limitations of the term, in her consciousness of persons or animals not immediately present. Impressions of coming events are sometimes strangely vivid. A scientific commission is about to undertake an investigation of her case.

#### Catarrh.

A writer to the *Tribune* says that this disease is curable, if the sufferer will persist in using the following: "The remedy is crushed cubeb berries smoked in a pipe, emitting the smoke through the nose; after a few trials this will be easy to do. If the nose is stopped up so that it is impossible to breathe, one pipeful will make the head as clear as a bell. For sore throat, asthma, bronchitis, swallowing the smoke effects immediate relief. It is the best remedy in the world for offensive breath, and will make the foulest of breath pure and sweet. Sufferers from the most horrible disease, ulcerated catarrh, will find this remedy to be unequalled, and a month's use will cure the most obstinate case. A single trial will convince any one. Eating the uncrushed berries is also good for sore-throat and all bronchial complaints. After smoking do not expose yourself to cold air for at least fifteen minutes. The berries are perfectly harmless; and there is no use going to catarrh doctors while you can procure this remedy. They can be procured at any drug store, and you can crush them yourself."

**THE PAIN-KILLER.**—We have known the high character of this medicine, and that it is used with great success and satisfaction in our very best families. It is the favorite medicine of our missionaries in heathen lands, where they use it more than all else together for the diseases that abound in those warm climates. It should be kept in every house, and be in readiness for sudden attacks of sickness.—*Christian Press.*

#### MONEY TO LOAN.

**WE** are prepared to Loan Money for any term of years, at Low Rates. Commission Charged. Good Notes and Mortgages Purchased.

**WILLIAMS & SMITH.**  
Napanee, Sept 24th, '78.

the cash in his pocket, he is able to buy when, where, and in what quantity he chooses. He is able to get his goods at the lowest prices, thus effecting a saving of from 5 to 10 per cent. on the very start. But in order to do this he must get the cash for his goods when he again turns them over to the retail customer.

And again—when the retail merchant does a credit business, let him be as careful as he may, he will almost of necessity have accounts which he can not collect. These losses must be made up in some way, and it only remains for the merchant to charge an extra per centage on the goods he retails to his PAYING customers.

Under the cash system there is also a large saving to the retail merchant in cost of book keeping and collecting, and also in the matter of discounts which he is obliged to make in order to meet accruing liabilities. And these small charges, we may remark, are a large item in a merchant's yearly expenses.

Under the Cash system these expenses are saved, and the merchant is able to retail his goods

## 15 or 20 per cent Cheaper

than he can possibly do under the credit system.

The above considerations have decided me to adopt the Cash System, under all circumstances, and after this announcement I hope and trust none of my old customers will not ask me for credit. I will guarantee to sell you goods 15 or 20 per cent. cheaper than I have ever been able to do before, and I am assured that all who give me a trial will soon see the advantage of the change, and will heartily endorse my decision and continue their patronage.

**Epps's Cocoa.**—**GREATFUL AND COMFORTING.**—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame. —*Cutler's Service to Coffee.*—Sold only in Packets labelled—**JAMES EPPS & CO., Homoeopathic Chemists, 48, Thredacelle Street, and 170 Piccadilly, London.** 42 ly.

## THE EXPRESS.

NAPANEE, NOV. 15, 1878.

### Personal.

Mr. R. J. Cartwright arrived in town on Thursday morning!

—Mr. J. C. Holton, collector of Inland Revenue, port of Belleville, died on the 5th inst.

### 'Devil's Elbow.'

Dorland P. O., has been opened at the corners known as Devil's Elbow, and is served by the daily mail to Adolphustown.

I HAVE waited patiently on every customer up to this time, but now I insist upon every order due account being paid at once—I cannot wait for ever. HENRY R. SPENCER.

### Barley

Mr. E. M. Fralick has been buying a cargo of A. I. Barley for a Boston firm. The grain is shipped per Grand Trunk, through freight.

—Mr. E. M. Fralick has been doing an immense business in buying eggs this season. He has shipped no less than 112,000 dozen to Boston since last spring.

—W. A. Rose comes out with some good common sense in his advertisement in this issue. We commend it to the perusal of all our readers.

SPENCER expects every man to pay up his overdue accounts, as he will wait no longer.

—Remember the Auction Sale of Farm Property and Household effects, on the premises of the late Mrs. Salisbury, South Fredericksburgh, on Wednesday next. Full particulars in our advertising columns.

### Intermediate Examinations.

The next Intermediate and Second Class examinations will commence on the 16th December, and last one week. All intending applicants must send their names to the head master of the High schools, on or before the 16th inst.

HENRY R. SPENCER gives value every time for the price paid for all kinds of first-class clothing. **Under the Mistletoe Boughs**

Is the title of the last number of the Franklin Square Library, and is truly a Christmas story. It is one of Mrs. Braden's best, and will be found very interesting. To be found at Henderson's, Dundas Street, Napanee; price only 15 cents.

Travelers going west will find first class accommodation at the Filmore House (formerly Scott's Hotel), corner Michigan and Carroll Streets, Buffalo, N. Y. Robert Sully, Proprietor. This house has recently been refitted and refurnished in modern style. Terms \$1 per day, meals 25 cents each.—[Ad.]

### New Harness Shop.

Mr. G. W. Goodwin has opened a new harness shop in the McMullen Block, Napanee. He is a workman of 16 years experience, and being enterprising we doubt not but he will do a good business. We have no space for further reference.

—The *Hastings* is only making tricky trips between Kingston and Belleville.

—Active measures are being taken by the presiding elders in the various districts in the Bay of Quinte and Niagara Conference to celebrate the semi-centenary of Canadian Methodism.

### Arrested.

About a month ago the quiet village of Adolphustown was disturbed by the sensation of robbing and attempt at incendiarism. A Mr. Gibbs of that place, had \$184 taken from a chest, the thief having piled a lot of clothes on the chest from which he purloined the money, and set them on fire to prevent the discovery of the theft. Detective Hagerty, of Kingston, took the matter up, and on Saturday last arrived in Napanee with a prisoner named Hart, who is charged with committing the theft. He was brought up before Justice James on Monday for examination, and remanded for trial.

### Mail Robbery.

The *Whig* gives the following particulars of the discovery of a mail robbery in Addington. On the 20th of October a letter sent by the Ontario Government to Mr. B. Watkins, to pay for labor on colonization roads, was robbed at Mountain Grove Post Office of its contents, \$280. The robbery was a surprise and mystery for a time, but in a few days suspicion fastened on Warren Godfrey, son of the Mountain Grove Postmaster who had spent money rather lavishly at Arden, a village not far distant. Inspector Barker applied himself to the case and made, by patient inquiry and careful observation, certain progress, but he failed to reach a satisfactory issue until this week, when he felt justified in taking action. On Wednesday he and Detective Macauley left the city, and on 7th inst. Warren Godfrey was arrested and taken to Kingston. He was lodged in the police station until Friday evening, when he was escorted to the residence of Inspector Baker and made a clean breast of the offence, confessing that he had stolen the money, twenty-eight \$10 bills, on Sunday night, October 2nd and spent some of it, while the balance he hid in the woods in the township of Olden. It may be difficult to find the missing wealth, but Mr. Baker has hopes of being successful, he being guided by directors given him by Godfrey. The prisoner who is a young man about 27 years of age, is very respectably connected, and deeply feels his criminal position. On Saturday morning he appeared before the Police Magistrate, and was committed for trial before Judge Price.

Godfrey was brought before Judge Price on Wednesday and sentenced to five years in the Penitentiary. The money has not yet been recovered though the authorities feel sanguine of discovery its location.

SPENCER has got the largest stock of Shirts, Cuffs, Collars, Neckties, Underclothing, &c., in Napanee.

### N. A. A. S. A.

The gymnastic exhibition given by the Napanee Academy Athletic Sports Association, in the Town Hall, on Friday evening last, was very fairly attended, considering the counter attractions. The entertainment was opened by an overture, by Mr. and Mrs. Odell, after which the President, Mr. W. Chipman, E. A., read an admirable essay on the rise and progress of gymnastic and athletic sports from the earliest times down to the present, clearly demonstrating that the benefits derived from a well developed muscular system more than compensated for the time spent in exercise, stating further that the object of the exhibition was not to make money, but simple to show what could be done in this branch by practice. He was warmly endorsed, The

He recommended that the librarian be requested to keep the register in accordance with the regulations laid down by the Department.

Mr. Hall moved, sec. by Mr. Davis that the Secretary be instructed to communicate with the librarian and instruct him to keep a library register according to the regulations of the Education Department.—Carried.

Mr. Osborne having entered the room, was heard on the subject, stating that his predecessor had taken a plan of his own invention, which he (Mr. Osborne) had followed, of simply taking the name of the pupil getting a book on a card. When he took charge of the library, 125 books were out, and he had succeeded in collecting all but 47, having the names of these with the exception of 13.

The Secretary here took the opportunity of reading to the librarian the resolution passed by the Board.

On motion of Mr. Detlor sec. by Mr. Hall, the sum of \$10 was granted the East Ward school with which to purchase a reference library.

Mr. Matheson stated that the school would give \$10, and that as the Government always doubled the amount raised, which would make the snug sum of \$40, that this would be sufficient to furnish all the books required.

By request of Mr. Matheson the old tree on the East Ward school grounds was ordered to be removed.

On motion of Mr. Hall the committee on school property were authorized to purchase a new stove for Mr. Tilley's room, in East Ward.

Mr. McCoy stated that he had purchased twelve tons of coal, for the West Ward school, at \$4.90 per ton and that six tons more would be required.

On motion of Mr. Henry, sec. by Mr. Molloy, the school property Com. were authorized to purchase the amount of coal lacking.

The matter of two odd seats in Miss Fraser's room, was referred to the Com. on school property.

The following accounts were passed: W. Joy, repairing stove, etc., \$1.75; R. Madden, wood, \$6; T. Pierson, painting, \$4.50; Henry & Bro., stationery, etc., \$28.34; Treasurer, to cash advanced for purchase of wood, \$20; Board of Examiners, expenses of late Intermediate examination, \$13.07; W. Saul, pointing Academy, \$30; F. Seldon, brooms, 30c; J. Crysdale, repairing, 75 cts.

By request of Mr. Osborne, the roof of the West Ward school building was ordered to be repaired.

The Secretary was instructed to get what printing he required done, and Miss Lane's room was ordered to be furnished with blackboard, brush and bell.

Board adjourned.

### Our Toronto Lotter.

#### CHIT-CHAT OF THE QUEEN CITY.

From our own correspondent.

On Tuesday evening one of the largest fires that we have had in Toronto for some time occurred. The Central Prison being so far away from the different fire halls the fire had a good chance to get absolute sway before the firemen could get into operation. The damage is estimated at \$90,000 but that amount will not be a total loss as the insurance is said to be \$75,000. The contractors (McMurray and Fuller) will lose more than the Government, as the greater part of this woodwork was not insured. The fire is supposed to have originated from rags saturated with benzine and varnish, being carelessly thrown aside and becoming ignited from the steam pipes which encircle the building, the flames were then carried to a couple of benzine barrels which have been standing in the paint shop offices for some time, from which the fire quickly spread to the buildings.

Candidates for the Local Legislature are cropping up on all sides. Alderman

HENRY R. SPENCER gives value every time for the price paid for all kinds of first-class clothing.

#### Under the Mistletoe Boughs

Is the title of the last number of the Franklin Square Library, and is truly a Christmas story. It is one of Mrs. Bradshaw's best, and will be found very interesting. To be found at Henderson's, Dundas Street, Napanee; price only 15 cents.

Travelers going west will find first class accommodation at the Filmore House (formerly Scott's Hotel), corner Michigan and Carroll Streets, Buffalo, N. Y. Robert Sully, Proprietor. This house has recently been refitted and refurnished in modern style. Terms \$1 per day, meals 25 cents each.—[Ad.]

#### New Harness Shop.

Mr. G. W. Goodwin has opened a new harness shop in the McMullen Block, Napanee. He is a workman of 16 years experience, and being enterprising we doubt not but he will do a good business. We have not space for further reference this week but would simply direct attention to his ad. in this issue.

What a wonderful discovery is Perry's Pain-Kuler! It not only cures the ills of the human family, but is also the sure remedy for horses with colic. It has never been known to fail in a cure of the worst cases; and for sprains, galls, &c., it never fails—try it once. Directions accompany each bottle. Sold by druggists.

H. R. SPENCER gives the best fits in clothing in town. Try him.

#### Oh! for that N. P.

Capt. Collier was in town yesterday with a schooner load of apples from Little Soda, New York state, which he was selling for \$1.50 per barrel. The ruling price for home produce on Saturday was \$2 to \$2.25. Oh! for that National Policy. Why the delay when poor laboring men are being ruined by buying Yankee apples at \$1.50 per barrel!

#### For the Poor.

The programme for the entertainment this evening, by the Napanee Dramatic Club, for the benefit of the poor of the town, has been circulated, and promises to be unusually interesting. The farce will be placed on the boards first, and is entitled, "Villikins and his Dinah." "La Tour du Nesle" will then be played. As this is the Club's third appearance in the drama, an excellent representation may be expected.

—Mr. Slaven of Slaven & Ironside has spent the week in Montreal, attending Messrs Ogilvy & Co's grand Auction Sale of dry goods. A despatch in the telegraphic reports say \$150,000 worth of goods is to be disposed of. Merchants can only be first in these days of keen competition by taking advantage of every opportunity for favorable purchases in the wholesale markets.

#### The Industrial Home

The poor of this town are so "toney" that they object to going "the poor house" so the very obliging chairman of the Poor and Sanitary committee has christened his new boarding house "the Industrial Home." The change is entirely satisfactory and the majority of those for whom it is intended will move in at once. The buildings has been completely renovated and the apartments fitted up, and will be ready for occupation to-day.

Go to Henry R. Spencer for your Fall suit, if you want it in first class style.

directors given him by Godfrey. The prisoner who is a young man about 27 years of age, is very respectably connected, and deeply feels his criminal position. On Saturday morning he appeared before the Police Magistrate, and was committed for trial before Judge Price.

Godfrey was brought before Judge Price on Wednesday and sentenced to five years in the Penitentiary. The money has not yet been recovered though the authorities feel sanguine of discovery its location.

SPENCER has got the largest stock of Shirts, Cuffs, Collars, Neckties, Underclothing, &c., in Napanee.

#### N. A. A. S. A.

The gymnastic exhibition given by the Napanee Academy Athletic Sports Association, in the Town Hall, on Friday evening last, was very fairly attended, considering the counter attractions. The entertainment was opened by an overture, by Mr. and Mrs. Odell, after which the President, Mr. W. Chipman, E. A., read an admirable essay on the rise and progress of gymnastic and athletic sports from the earliest times down to the present, clearly demonstrating that the benefits derived from a well developed muscular system more than compensated for the time spent in exercise, stating further that the object of the exhibition was not to make money, but simple to show what could be done in this branch by practice. He was warmly encouraged. The programme of the evening was then gone through with, consisting of parallel bar, trapeze, horizontal bar, tumbling, and Indian club exercises, three of the class competing for prizes in the last named act. We have not space to individualize all the performers, but the movements of Messrs. Lott McKim and McCabe in the parallel bar and vaulting feats elicited the hearty applause of the audience. The daring acts of Masters Mills, Tilley, James, and Bell, on the trapeze and horizontal bar, were also well received. In the Indian club competition for prizes, Messrs. Mills, James, and Tilley took part. The exercise throughout was an excellent one, all showing proficiency in handling the clubs, but Mr. Mills carried off the palm, being awarded first prize—Tennyson's book of poems, which we think met the approval of all present as the lightning-like velocity with which he would whirl the six-pounders was truly surprising. James and Tilley submitted with a good grace to second and third prizes—Longfellow's and Shakespeare's poems. The entertainment was agreeably interspersed with music by Odell's character, which added largely to the evening's enjoyment. The proceeds of the evening are to be devoted to improving the gymnasium in connection with the school. Napanee can well be proud of an institution of this character, which has for its object the advancement of so laudable a cause, and we hope to see greater interest manifested in this necessary branch of training, not only by teachers, but all those interested in the elevation, advancement, and development of the mind and muscle of the rising generation.

#### THE TOMB.

At her residence, Adolphustown, on the 6th inst., Miss Mary Dorland, aged 71 years.

#### SCHOOL BOARD.

A special meeting of the School Board was held on last Tuesday evening. Present—Messrs. Molloy, S. Dettlor, J. Perry, Davis, Hall, R. McCoy, Webster and T. Henry.

A. C. Davis took the chair, on motion. After routine communications were received as follows:

From A. C. Osborne, requesting an increase of salary. Referred to committee on Teachers to report.

From the Secretary Education Department, stating the semi-annual grant to the High School for first half 1878, to be \$329.75, also a further grant of \$50 to the

of the West Ward school building was ordered to be repaired.

The Secretary was instructed to get what printing he required done, and Miss Lane's room was ordered to be furnished with blackboard, brush and bell. Board adjourned.

#### Our Toronto Letter.

#### CHIT CHAT OF THE QUEEN CITY.

From our own correspondent.

On Tuesday evening one of the largest fires that we have had in Toronto for some time occurred. The Central Prison being so far away from the different fire halls the fire had a good chance to get absolute sway before the firemen could get into operation. The damage is estimated at \$90,000 but that amount will not be a total loss as the insurance is said to be \$75,000. The contractors (McMurray and Fuller) will lose more than the Government, as the greater part of the woodwork was not insured. The fire is supposed to have originated from rags saturated with benzine and varnish, being carelessly thrown aside and becoming ignited from the steam pipes which encircle the building, the flames were then carried to a couple of benzine barrels which have been standing in the paint shop offices for some time, from which the fire quickly spread to the buildings.

Candidates for the Local Legislature are cropping up on all sides. Alderman John Hallam threatens to take the field against the Hon. M. C. Cameron on the exemption question. The "fussy little" Alderman informs Mr. Cameron that if he will go in for the abolition of exemptions, he will not oppose him, but otherwise he will do so. However John has not a ghost of a chance of being elected. In west Toronto Harry Piper the redoubtable Alderman is up on the Conservative ticket. Harry is noted for being one of the representatives of what is called the "rowdy ward," in the city council, as well as for being one of the "bhoys." Nicholas Flood Davin (the defeated of Haldimand) and Robert Bell the present M. P. are also mentioned in addition to Messrs. Piper and Meek. Mr. Meek is the nominee of some of the Liberal Conservatives Workingmen's League. The Reformers as yet have not nominated any one but in all probability D. Ogden will be their candidate. Municipal election matters are rather flat, no addition being made to the list of candidates for the mayoralty.

The chief Justiceship of the Queens Bench has not yet been filled. Rumour has it that Mr. Christopher Robinson has been offered and declined the chief Justiceship, and that in all probability it will be tendered to the Hon. Adam Wilson, Mr. Hector Cameron Q. C., M. P. for Victoria, it is also whispered stands a chance for the puisne Judgeship. Mr. Cameron is a good enough Lawyer in his way, still I do not think he knows enough law to accept a position on the Bench.

Cigar makers still continue on strike, and announce that they will have their co-operative factory in operation in the course of three or four weeks.

Building matters have been brisk all summer. On the south-west corner of King and George streets the Dominion Bank has erected a building which is far ahead of any banking office in Canada, nearly opposite the north of Scotland Canadian Mortgage Company have their new offices, which though not equal to those of the Dominion Bank, still are far ahead of any other Loan Company's offices. On Toronto street, the Farmer's Loan and Savings Company are putting up a new building which will compare favorably with the majority of public buildings in the city. The buildings I have mentioned will add considerably to the beauty of our streets as well as enhance the value of property in the vicinity.

Burglaries have been common in the city for some time, and now the cry goes up for more police protection.

same institution.

Geo. West returned the other Gladstone, where he has been a part of his property into town. He sold no fewer than thirty-six lots directly upon their being surveyed ten more since his arrival in the prices ranging from \$20 to \$75.

The Cheyenne arrived at Tuesday evening about eight o'clock the Dakota got froze in just ab Pembina. The latter boat had of freight and about forty passengers. The Selkirk reached Grand Port day night with about sixty passengers and a light manifest of freight.

A despatch from Bismarck to Capt. Allen, of the N. W. M. Co. arrived at that place received Fort Walsh, and reports that an attempt to assassinate Major W. J. was frustrated by Sitting Bull. He said while Sitting Bull is deterring his hostility to the United States of his followers are inclined to retire.

The steamers Manitoba, M International and Alpha are laid Grand Forks, D. T. The Selkirk last heard from, was on the way Fisher's to the forks. The Dakota expected to reach Pembina this week where she will probably winter, Cheyenne went up yesterday Lynne, where she will lay up, if there.

#### Salsbury Items.

The first public meeting was held week on the visit of the Revs. J. M. M. A., and W. R. Morrison, putation from the Methodist M Society.

Many of the settlers are now in their families. We shall soon have a good opening for a here, and a grist mill will very necessity also. One very excellent is offered to a suitable party.

#### North-West News.

From the Saskatchewan Herald 7th October we glean the following items:

There are three ten horse threshing machines at work in Albert Settlement. All the grain is ready for market.

A private letter says six years little land was cultivated at H outside of that upon the Hudson Company's farm, while this, according to Father LeDuc, of St. Mission, who is good authority are over thirty thousand bushels raised around Edmonton.

Captain Moore, of Prince Albert here for several days last week, reports the wheat as threshing and being of a very superior quality.

The payment to the Indians' Treaty with the Dominion Gov began on Wednesday at ten about 700 Indians were present receive treaty money, and above were paid out. The Indians collected from Jasper House, and Crees. The Iroquois number few lodges, and are the descendants few were brought here many years by the Hudson's Bay Company and voyagers. During the prices were quoted as follows: to 50c, sugar 22c to 30c, flour \$1 a bag, pork 10c, matches dry goods merely nominal, with of tobacco or a shovel of a thrown in two the purchase worth. Good three-point blank steadily at \$1 a piece. The still hold the fort, as it were, and dancing are the order of the night.

#### Emerson.

With snow falling fast and ice in the river, it looks as if winter is in.

Notwithstanding the flatness season, work on several new have been commenced.

Real estate is in demand, and is generally very good.

The American railway travel about two hours drive from a wagon loads of passengers.

never been known to fail in a cure of the worst cases; and for sprains, galls, &c., it never fails—try it once. Directions accompany each bottle. Sold by druggists.

—When you are on the road and happen to strike Buffalo, the place to obtain refreshments is at Jerry Shaver's eastern summer saloon, 20 Exchange st., near N.Y. & H.R.R. depot. Warm meals at all hours; wines, liquors and cigars, and all the luxuries of the season. Terms reasonable. —AD.

#### Remember

The missionary sermons in connection with the C. M. Church will be preached on next Sunday morning and evening, by Rev. S. J. Haver, of Toronto, and on the following Monday night the annual missionary meeting will take place, when the above gentleman and Rev. Mr. Galbraith, of Kingston, are expected to be present and deliver addresses.

It is acknowledged by every gentleman who has examined the immense stock of Scotch, Canadian and English Tweeds and Overcoats on exhibition at Henry R. Spencer's clothing store, that he has the largest and cheapest stock ever before shown in the county of Lennox & Addington when quality is considered.

#### Street Repairs.

Our streets have been put in thorough repair for the winter, during the past few weeks, with the exception of the crossing at McDonald's corner, and we hope to see this attended to before winter sets in. The street committee, and more especially Mr. Cliff, deserve the thanks of the public for the efficient manner in which these repairs have been carried forward, and although the committee have more than expended the appropriation, still we do not think any rate-payer will begrudge the few extra dollars expended, as the improvements made were very much needed, and will be appreciated by all during the next six months.

movements of Messrs. Lott McKim and McCabe in the parallel bar and vaulting feats elicited the hearty applause of the audience. The daring acts of Masters Mills, Tilley, James, and Bell, on the trapeze and horizontal bar, were also well received. In the Indian club competition for prizes, Messrs. #### THE TOMB.

At her residence, Adolphustown, on the 6th inst., Miss Mary Dorland, aged 71 years.

#### SCHOOL BOARD.

A special meeting of the School Board was held on last Tuesday evening.

Present—Messrs. Molloy, S. Dettlor, J. Perry, Davis, Hall, R. McCoy, Webster and T. Henry.

A. C. Davis took the chair, on motion. After routine communications were received as follows:

From A. C. Osborne, requesting an increase of salary. Referred to committee on Teachers to report.

From the Secretary Education Department, stating the semi-annual grant to the High School for first half 1878, to be \$329.75, also a further grant of \$50 to the Model School for the past term.

Mr. J. Perry informed the Board that a great deal of dodging was going on among the teachers of the town. Some would leave their schools for two or three days at a stretch in charge of a scholar or some incompetent person. He thought they should be required to attend more strictly to their duties.

Mr. Perry moved, sec. by Mr. Molloy, that the headmasters of East and West Ward schools be required to keep a record of the number of days absence of all teachers, and report to the Board each month. Carried.

Mr. Chipman, by consent, addressed the Board on the subject of draining the East Ward school ground. The pupils and teachers had done what they could by way of open drains, but these had not proved sufficient. The grounds are of no use for two or three months in the spring and fall. He thought \$6 would cover the expense.

Mr. Perry moved, sec. by Mr. Hall, that the East Ward School committee be authorized to have the necessary drains built.—Carried.

The Inspector's and Teachers' report for October were presented, the former giving the total number of pupils on the West Ward registers as 574—average attendance 442.

Dr. Rutan here entered and took the Chair.

A communication was presented from F. Burrows, stating the school library to be in a very dilapidated condition. Some of the books had become badly torn and soiled through misusage; about 47 numbers of the library were missing, and 18 volumes had been taken out without even the name of the person being given.

not a ghost of a chance of being elected. In west Toronto Harry Piper the redoubtable Alderman is up on the Conservative ticket. Harry is noted for being one of the representatives of what is called the "rowdy ward," in the city council, as well as for being one of the "bhoys." Nicholas Flood Davin (the defeated of Haldimand) and Robert Bell the present M. P. are also mentioned in addition to Messrs. Piper and Meek. Mr. Meek is the nominee of some of the Liberal Conservatives Workingmen's lodges. The Reformers as yet have not nominated any one but in all probability D. Ogden will be their candidate. Municipal election matters are rather flat, no addition being made to the list of candidates for the mayoralty.

The chief Justiceship of the Queen's Bench has not yet been filled. Rumour has it that, Mr. Christopher Robinson has been offered and declined the chief Justiceship, and that in all probability it will be tendered to the Hon. Adam Wilson, Mr. Hector Cameron Q. C., M. P. for Victoria, it is also whispered stands a chance for the puisne Judgeship. Mr. Cameron is a good enough Lawyer in his way, still I do not think he knows enough law to accept a position on the Bench.

Cigar makers still continue on strike, and announce that they will have their co-operative factory in operation in the course of three or four weeks.

Building matters have been brisk all summer. On the south-west corner of King and George streets the Dominion Bank has erected a building which is far ahead of any banking office in Canada, nearly opposite the north of Scotland Canadian Mortgage Company have their new offices, which though not equal to those of the Dominion Bank, still are far ahead of any other Loan Company's offices. On Toronto street, the Farmer's Loan and Savings Company are putting up a new building which will compare favorably with the majority of public buildings in the city. The buildings I have mentioned will add considerably to the beauty of our streets as well as enhance the value of property in the vicinity.

Burglaries have been common in the city for some time, and now the cry goes up for more police protection.

We have had in our midst for some time the Rev. Wm. Taylor of California fame, who has been holding revival meetings in the Elm Street Methodist Church. Some of his remarks sound rather queer in the ears of old Methodists, but still they are to the point. However up to date he has not been particularly successful in inducing sinners to "flee the wrath to come." On Sunday last Rev. Dr. Thomas preached in the Bloor Street Methodist Church to an immense audience. The Dr. is a true Yanker, but has some sound ideas in his head.

Leaving religious and other subjects I will turn to sporting matters. On Friday, and Saturday next we are going to have a series of handicap spurt races. Some of the best runners in the continent have given in their names, notable among whom are Barnes and Carruthers of this city, and F. W. Steve of Philadelphia.

Hanlan has been matched to row a race with Hawden in May next on the Tyne. The way "our" Ned will shake up the English boating men will astonish the world or I am mistaken. After his tour in England he will in all likelihood have a match with the Gandauer Bros., of Orilla. Their backer Mr. R. Russell of Orilla seems to think because they have beaten Elliott and McKen, and Hanlan and Adair that they are invincible. I think before the season of 1879 closes he will find out his mistake.

Football is all the rage. On Saturday next the Argonauts of Toronto play the Hamilton Football Club (Rugby Union Rules) on the Toronto cricket ground.

Toronto, Nov. 13th, 1878.

necessity also. One very ex is offered to a suitable party.

#### North-West News.

#### Emerson.

With snow falling fast and ice in the river, it looks as if winter is in.

Notwithstanding the flatness season, work on several new have been commenced.

Real estate is in demand, and generally is very good.

The American railway track about two hours drive from Winnipeg loads of passengers yesterday for the track, distant miles.

#### Manitoba Railway Inter

The Free Press thus views the change of Ministry at Ottawa have upon what is justly regarded Manitoba's principal interest.

"In a recent issue it was logically inferred that a change of administration at Ottawa would delay the time when Manitoba afforded railway facilities—at the Dominion. We need not time is a very important connection in this connection. Settlers in the interior and more remote sections of the Province feel—and for good reason that they have already waited ways just about as long as they the present state of affairs it is advantage to them to raise money is required for their own purposes; for, as has been repeatedly sent in these columns, except the country in the vicinity of the River, grain cannot be cultivated marketed at a profit. This is the want of transportation facilities. The localities most railways immediately are those the Red River and north and the Assiniboine, respective roads, at least, are requisite. colonization railway policy of Government, brought before Parliament last session, we had great expectation and had that party been content power we are ever so confident an early day we should have seen railways stimulated into constant this policy. But, not only have

He recommended that the librarian be requested to keep the register in accordance with the regulations laid down by the Department.

Mr. Hall moved, sec. by Mr. Davis that the Secretary be instructed to communicate with the librarian and instruct him to keep a library register according to the regulations of the Education Department.—Carried.

Mr. Osborne having entered the room, was heard on the subject, stating that his predecessor had taken a plan of his own invention, which he (Mr. Osborne) had followed, of simply taking the name of the pupil getting a book on a card. When he took charge of the library, 125 books were out, and he had succeeded in collecting all but 47, having the names of these with the exception of 13.

The Secretary here took the opportunity of reading to the librarian the resolution passed by the Board.

On motion of Mr. Dettlor sec. by Mr. Hall, the sum of \$10 was granted the East Ward school with which to purchase a reference library.

Mr. Matheson stated that the school would give \$10, and that as the Government always doubled the amount raised, which would make the snug sum of \$40, that this would be sufficient to furnish all the books required.

By request of Mr. Matheson the old tree on the East Ward school grounds was ordered to be removed.

On motion of Mr. Hall the committee on school property were authorized to purchase a new stove for Mr. Tilley's room, in East Ward.

Mr. McCoy stated that he had purchased twelve tons of coal, for the West Ward school, at \$4.90 per ton and that six tons more would be required.

On motion of Mr. Henry, sec. by Mr. Molloy, the school property Com. were authorized to purchase the amount of coal lacking.

The matter of two odd seats in Miss Fraser's room, was referred to the Com. on school property.

The following accounts were passed: W. Joy, repairing stove, etc., \$1.75; R. Madden, wood, \$6; T. Pierson, painting, \$4.50; Henry & Bro., stationery, etc., \$28.34; Treasurer, to cash advanced for purchase of wood, \$20; Board of Examiners, expenses of late Intermediate examination, \$13.07; W. Saul, pointing Academy, \$30; F. Seldon, brooms, 30c; J. Crysdale, repairing, 75 cts.

By request of Mr. Osborne, the roof of the West Ward school building was ordered to be repaired.

The Secretary was instructed to get what printing he required done, and Miss Lane's room was ordered to be furnished with blackboard, brush and bell.

Board adjourned.

### Newsy Paragraphs from the North-West

Clipped from the "Free Press," Winnipeg, November 2nd, 78.

#### Winnipeg Locals.

Lake Manitoba is frozen over, and teams are driving the ice.

Popular Point had twelve inches of a snow fall the other day.

The Winnipeg city policemen are to be rigged out in new buffalo overcoats.

Winter rates on the stage came into operation last Tuesday—16.50 to Fisher's.

The *Battleford Herald* quotes wheat at Prince Albert, N.W.T., at \$1.50 per bushel.

Fargo, Dakota, can luxuriate in coal at \$9.50 a ton—just about half the figure asked in Winnipeg.

The Rev. Mr. Dyer, the Methodist clergyman stationed at Stonewall, asks for \$1 subscriptions, through the *Guardian*, towards the erection of a parsonage at that place.

Work on Fort Francois canal has ceased for the season. The rock-work on the canal is completed, and the remainder of the wood-work will be finished in the spring.

The steam ferry boat, *Adelaide*, went into winter quarters Saturday at the mouth of the Seine. The scow used in the spring is being utilized till the close of navigation.

Mr. Geo. Balkwill, of Rapid City, who has been down in Ontario purchasing machinery for a saw and grist mill, arrived last week with the necessary equipment. He also brings some very choice stock.

Besides the *Marquette Review*, the paper to be published shortly at the Portage by Mr. Collins, we hear that Mr. Douglas, formerly of the *Fort William Daybrook*, intends purchasing a paper either at Emerson or Pembina.

On Saturday evening, Flynn, convicted of burglary and stealing a buffalo overcoat from C. J. Mulder, was sentenced to three years imprisonment in the Provincial Penitentiary; and Frank White, for forgery, to five years in the same institution.

Geo. West returned the other day from Gladstone, where he has been laying out part of his property into town lots. He sold no fewer than thirty-six lots immediately upon their being surveyed, and ten more since his arrival in town—the prices ranging from \$20 to \$75.

The Cheyenne arrived at Emerson Tuesday evening about eight o'clock; but the Dakota got froze in just above Fort Pembina. The latter boat had 250 tons of freight and about forty passengers. The Selkirk reached Grand Forks Tuesday night with about sixty passengers and a light manifest of freight.

A despatch from Bismarck says that Capt. Allen, of the N. W. Mounted Police, arrived at that place recently from Fort Walsh, and reports that an Indian attempt to assassinate Major W. was frustrated by Sitting Bull. He also says that while Sitting Bull is determined in his hostility to the United States, some of his followers are inclined to return.

The steamers *Manitoba*, *Minnesota*, *International* and *Alpha* are laid up at Grand Forks, D. T. The Selkirk, when last heard from, was on the way from Fisher's to the forks. The Dakota was expected to reach Pembina this afternoon where she will probably winter, and the Cheyenne went up yesterday to West Lynne, where she will lay up, if she gets there.

#### Salsbury Items.

The first public meeting was held last

sectors of that policy passed from power, but their successors declared against the fundamental principle of that policy—aiding local railways in this Province within any reasonable period. We shall therefore have to fall back on our own resources."

#### An American Recommendation.

It is not often that we see the American press lauding Canada above their own country as an advantageous field for emigration. The following from the *Chicago News* will therefore be appreciated: "The great advantage of railway connection will be apparent when from the present mode of communication. When connection is completed an area of nearly 300,000 square miles of the most fertile soil on the continent will be open to settlement and trade with our great western commercial centres. The enormous yield of cereals produced in this region, as yet so sparsely settled, is astounding, even to Kansas and Minnesota farmers. The average yield of wheat is from thirty to forty bushels to the acre, and will weigh sixty-eight pounds to the bushel. Cases are known of a yield of sixty bushels of spring wheat to the acre, and even seventy-five bushels have been produced from one bushel sown. Oats and barley are produced in like proportion, and all varieties of beet roots and grasses yield immensely and attain the greatest perfection. During the past season, with all its disadvantages of access, the immigration into this favored region is estimated at over 12,000 well-to-do immigrants, principally farmers from the Province of Ontario, while with the increased facilities of access for the coming year, the immigration from Canada and Great Britain will probably quadruple that amount. \* \* \* Within the next decade we shall probably see a population of over 500,000 people occupied in the agricultural development of this enormously fertile region, and producing a grain crop equal to that of the State of Minnesota at present."

#### Treaty Payments in the North West.

The *Saskatchewan Herald* of the 23rd September, says: "The Lieutenant Governor returned to Battleford on Wednesday evening last from his visit to Carleton, Duck Lake, and Prince Albert. He held satisfactory consultations with the Indian chiefs of the former and latter places respecting the location of their reserves. The chiefs of Duck Lake, however, were indisposed to discuss the boundaries of their reserves until some demand, not included in the treaty, were acceded to. These His Honor could not grant, and the question of locating their reserves had, for the present, to stand in abeyance. Indeed, one of the chiefs called 'The Beardy,' who being a medicine man has many superstitious notions, refused with a few of his band to accept the year's annuity. The other chiefs, however, and the majority of the Beardy band, took their treaty money."

**MORE VALUABLE THAN GOLD.**  
MARICA AND OIL LINIMENT is not only the best but the cheapest for external use. It is not offensive, neither stains nor irritates and is the most penetrating liniment ever put in a bottle. Consequently, removes inflammation, removes the soreness and effects a cure at once. Once tried, always used.  
Price 25 and 30 cents.

**POSITIVELY A PREVENTATIVE.**—It is a well-known fact that Consumption is an hereditary disease. Nevertheless, probably two-thirds of the cases that prove fatal are brought on by a neglected cough. Hundreds of lives might be saved yearly by the timely use of *Downs' Balsamic Elixir*, it is a sure and effectual remedy, and can always be relied upon. In the last stages of consumption it will give great relief, and may be taken advantageously with Cod Liver Oil.

**HEALTH IS MORE VALUABLE THAN WEALTH.** is the exclamation of the invalid. In using any remedy for the restoration of health, it is a duty in ourselves to use those that have stood the test of trial and have never been condemned, but always spoken of in terms of the highest praise by every one that has ever used

Chickens—25c. to 30c. per pair.

## TO CONSUMPTIVES.

The advertiser, a retired physician, having providentially discovered, while a Medical Missionary in Southern Asia, a very simple vegetable remedy for the speedy and permanent cure of Consumption, Asthma, Bronchitis, Catarrh, and all throat and lung affections, also a positive and radical specific for Nervous Debility, Premature Decay, and all Nervous Complaints, feels it his duty to make it known to his suffering fellows. Actuated by this motive, he will cheerfully send (free of charge) to all who desire it, the recipe for preparing and full directions for successfully using, the providentially discovered remedy. Those who wish to avail themselves of the benefits of this discovery without cost, can do so by return mail by addressing, with stamp,

DR. CHAS. F. H. H. ASHALL,  
No. 8 Niagara Street,  
33 Buffalo, N. Y.

INVALIDS, do you wish to gather flesh, to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep to feel and know that every fibre and tissue of your system is being braced and renovated? If so commence at once and use the Quinine Wine prepared by Northrop and Lyman of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and pleasant invigorator to the whole system. The properties of Quinine are a febrifuge tonic and antiperiodic. Small doses, frequently repeated, strengthen the pulse, increase muscular force, and invigorate the tone of the nervous system. The peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation, and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character. Persons of weak constitutions may use it without the least difficulty, as it strengthens the stomach and digestive organs and seldom requires more than one or two bottles to effect a decided benefit, as it contains nothing injurious to the most delicate constitution. Remember to ask for the "Quinine Wine prepared by Northrop and Lyman, Toronto," and we are sure you will be satisfied that you have full value for your money.

Sold at all Medicine Dealers.

## In the Surrogate Court

—OF THE COUNTY OF—  
LENNOX AND ADDINGTON.

In the Goods of

**WILLIAM WEST,**  
DECEASED.

UPON reading the affidavit filed herein, I do order that a Citation do issue out of this Honorable Court, directed to John West, Patrick West, Sarah Ann Sweeney, Mary Rutledge, Catherine Lacey, Jacob West, Charles West, Joseph West, Thomas West, Ann West and Mary West, and that said Citation be served on Charles West, Mary Rut-

From our own correspondent.

On Tuesday evening one of the largest fires that we have had in Toronto for some time occurred. The Central Prison being so far away from the different fire halls the fire had a good chance to get absolute sway before the firemen could get into operation. The damage is estimated at \$80,000 but that amount will not be a total loss as the insurance is said to be \$75,000. The contractors (McMurray and Fuller) will lose more than the Government, as the greater part of the woodwork was not insured. The fire is supposed to have originated from rags saturated with benzine and varnish, being carelessly thrown aside and becoming ignited from the steam pipes which encircle the building, the flames were then carried to a couple of benzine barrels which have been standing in the paint shop offices for some time, from which the fire quickly spread to the buildings.

Candidates for the Local Legislature are cropping up on all sides. Alderman John Hallam threatens to take the field against the Hon. M. C. Cameron on the exemption question. The "fussy little" Alderman informs Mr. Cameron that if he will go in for the abolition of exemptions, he will not oppose him, but otherwise he will do so. However, John has not a ghost of a chance of being elected. In west Toronto Harry Piper the respectable Alderman is up on the Conservative ticket. Harry is noted for being one of the representatives of what is called the "rowdy ward," in the city council, as well as for being one of the "bhoys." Nicholas Flood Davin (the defeated of Haldimand) and Robert Bell the present M. P. P. are also mentioned in addition to Messrs. Piper and Meek. Mr. Meek is the nominee of some of the Liberal Conservatives Workmen's lodges. The Reformers as yet have not nominated any one but in all probability D. Ogden will be their candidate. Municipal election matters are rather flat, no addition being made to the list of candidates for the mayoralty.

The chief Justiceship of the Queens Bench has not yet been filled. Rumour has it that Mr. Christopher Robinson has been offered and declined the chief Justiceship, and that in all probability it will be tendered to the Hon. Adam Wilson. Mr. Hector Cameron Q. C., M. P. for Victoria, it is also whispered stands a chance for the puisne Judgeship. Mr. Cameron is a good enough lawyer in his way, still I do not think he knows enough law to accept a position on the Bench.

Cigar makers still continue on strike, and announce that they will have their co-operative factory in operation in the course of three or four weeks.

Building matters have been brisk all summer. On the south-west corner of King and George streets the Dominion Bank has erected a building which is far ahead of any banking office in Canada, nearly opposite the north of Scotland Canadian Mortgage Company have their new offices, which though not equal to those of the Dominion Bank, still are far ahead of any other Loan Company's offices. On Toronto street, the Farmer's Loan and Savings Company are putting up a new building which will compare favorably with the majority of public buildings in the city. The buildings I have mentioned will add considerably to the beauty of our streets as well as enhance the value of property in the vicinity.

Burglaries have been common in the city for some time, and now the cry goes up for more police protection.

We have had in our midst for some time the Rev. Wm. Taylor of California fame, who has been holding revival meetings in the Elm Street Methodist Church. Some of his remarks sound rather queer in the ears of old Methodists, but still they are to the point. However up to date he has not been par-

The Cheyenne arrived at Emerson Tuesday evening about eight o'clock; but the Dakota got froze in just above Fort Pembina. The latter boat had 250 tons of freight and about forty passengers. The Selkirk reached Grand Forks Tuesday night with about sixty passengers and a light manifest of freight.

A despatch from Bismarck says that Capt. Allen, of the N. W. Mounted Police, arrived at that place recently from Fort Walsh, and reports that an Indian attempt to assassinate Major W. was frustrated by Sitting Bull. He also says that while Sitting Bull is determined in his hostility to the United States, some of his followers are inclined to return.

The steamers Manitoba, Minnesota, International and Alpha are laid up at Grand Forks, D. T. The Selkirk, when last heard from, was on the way from F. Fisher's to the forks. The Dakota was expected to reach Pembina this afternoon where she will probably winter, and the Cheyenne went up yesterday to West Lynne, where she will lay up, if she gets there.

#### Salsbury Items.

The first public meeting was held last week on the visit of the Revs. J. F. German M.A., and W.R. Morrison, as a deputation from the Methodist Missionary Society.

Many of the settlers are now bringing in their families. We shall soon fill up. There is a good opening for a sawmill here, and a grist mill will very soon be a necessity also. One very excellent site is offered to a suitable party.

#### North-West News.

From the Saskatchewan Herald of the 7th October we glean the following news items:

There are three ten horse-power threshing machines at work in Prince Albert Settlement. All the grain will soon be ready for market.

A private letter says six years ago very little land was cultivated at Edmonton outside of that upon the Hudson's Bay Company's farm, while this year, according to Father LeDuc, of St. Albert's Mission, who is good authority, there are over thirty thousand bushels of grain raised around Edmonton.

Captain Moore, of Prince Albert, was here for several days last week. He reports the wheat as threshing out well, and being of a very superior quality.

The payment to the Indians under the Treaty with the Dominion Government, began on Wednesday at ten o'clock. About 700 Indians were present to receive treaty money, and about \$8,700 were paid out. The Indians consisted of Iroquois from Jasper House, Staneys and Crees. The Iroquois number only a few lodges, and are the descendants of a few were brought here many years ago by the Hudson's Bay Company as trappers and voyageurs. During the payment prices were quoted as follows: Tea 35c to 50c, sugar 22c to 30c, flour \$10 to \$12 a bag, painkiller 35c, matches 50c, and dry goods merely nominal, with a pound of tobacco or a shovel of ammunition thrown in two the purchaser of \$10 worth. Good three-point blankets stood steadily at \$1 a piece. The Indians still hold the fort, as it were, and feasting and dancing are the order of the day and night.

#### Emerson.

With snow falling fast and ice running in the river, it looks as if winter had set in.

Notwithstanding the flatness of the season, work on several new buildings have been commenced.

Real estate is in demand, and business generally is very good.

The American railway track is still about two hours drive from us. Three waggon loads of passengers left here yesterday for the track, distant nine miles.

#### Manitoba Railway Interests.

The Free Press thus views the effect the change of Ministry at Ottawa will have upon what is justly regarded as

to stand in abeyance. Indeed, one of the chiefs called "The Beardy," who being a medicine man has many superstitious notions, refused with a few of his band to accept the year's annuity. The other chiefs, however, and the majority of the Beardy band, took their treaty money.

**MORE VALUABLE THAN GOLD.**  
ARUNICA AND OIL LINIMENT is not only the best but the cheapest for external use. It is not offensive, neither stains nor irritates and the most penetrating liniment ever put in a bottle, consequently reduces inflammation, removes the soreness and effects a cure at once. Once tried, always used.

Price 25 and 30 cents.

**POSITIVELY A PREVENTATIVE.**—It is a well-known fact that Consumption is a hereditary disease. Nevertheless, probably two-thirds of the cases that prove fatal are brought on by a neglected cough. Hundreds of lives might be saved yearly by the timely use of Bower's Balsamic Elixr. It is a sure and effectual remedy, and can always be relied on. In the last stages of consumption it will give great relief, and may be taken advantageously with Cod Liver Oil.

**HEALTH IS MORE VALUABLE THAN WEALTH.** is the exclamation of the invalid. In using any remedy for the restoration of health, it is a duty in ourselves to use those that have stood the test of trial and have never been condemned, but always spoken of in terms of the highest praise by every one that has used them. **BAXTER'S MANDRAKE BITTERS** for any disorders of the Liver, such as Jaundice, Sick Headache, Bilious Colic, Dysentery, Diarrhoea, can be used with a guarantee of perfect success.

Price 25 cents.

**PETTIT'S EYE-SALVE**  
An Infallible Remedy for all Diseases of the Eye (acute or chronic.) Granulation of the Lids, Ulceration of the Lacrymal Glands, Film, and Weakness of the Vision from any cause.

THE AMERICAN EYE-SALVE is presented to the public with the assurance of its efficiency as a curative of most diseases of the eye, acute or chronic inflammation, whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a decreased state of the tissues constituting that organ. Also, for all persons whose vocation requires an incessant action of the eyes, the salve will act as a charm in restoring a uniform, healthy action, where weakness, pain, and misery may have long threatened a fatal termination. It is the most simple, safe, and effectual remedy ever discovered. The materials of which it is made are pure, perfect, and costly, compounded with elaborate care and exactness, safe in its application, being used externally, and, of course, avoiding the pain and danger which necessarily attends the introduction of caustic minerals and eye-washes. **RINGWORM AND OLD CHRONIC SORES**, of scrofulous origin, or resulting from whatever cause, yield to the AMERICAN EYE-SALVE. IT IS USED SUCCESSFULLY FOR PILLS. Its soothing effect is immediate, and a permanent cures requires but a few applications. The proprietors of "Dr. J. Pettit's American Eye-Salve," while making new and improved machinery for making a more perfect box for the eye salve, have changed the Trade Mark on the cover so as to correspond with the Cut on the Wrapper, Advertisements, etc. We call attention to this, as it might otherwise be regarded as counterfeiting.

Read what the People say in regard to the Great Shoshonees Remedy and Pills.

LEVI JONES, Markham, says: I had a severe attack of Bronchitis. I was so bad that I could hardly get my breath. I sought for a quick remedy, and seeing the Shoshonees Remedy so highly recommended, I procured a bottle, and am happy to say that, by the time it was taken, I was entirely well and have remained so, although I was much exposed through the winter in travelling.

REV. F. B. SPATTON, Demorestville, writes: I have found your remedies particularly beneficial for Liver Complaint, Dyspepsia and Bronchial Affections, and would advise all similarly affected to give them a trial.

MRS. A. D. PIERCE, Waverly, N. Y., says: It affords me much pleasure to express my heartfelt gratitude for the benefit I have received from using the Great Shoshonees Remedy. I was sore-

gans and seldom requires more than one or two bottles to effect a decided benefit, as it contains nothing injurious to the most delicate constitution. Remember to ask for the "Quinnie Wine prepared by Northrop and Lyman, Toronto," and we are sure you will be satisfied that you have full value for your money.

Burglaries have been common in the city for some time, and now the cry goes up for more police protection.

We have had in our midst for some time the Rev. Wm. Taylor of California fame, who has been holding revival meetings in the Elm Street Methodist Church. Some of his remarks sound rather queer in the ears of old Methodists, but still they are to the point. However up to date he has not been particularly successful in inducing sinners to "flee the wrath to come." On Sunday last Rev. Dr. Thomas preached in the Bloor Street Methodist Church to an immense audience. The Dr. is a true Yankee, but has some sound ideas in his head.

Leaving religious and other subjects I will turn to sporting matters. On Friday and Saturday next we are going to have a series of handicap sprint races. Some of the best runners in the continent have given in their names, notable among whom are Burnes and Carruthers of this city, and F. W. Steve of Philadelphia.

Hanlan has been matched to row a race with Hawden in May next on the Tyne. The way "our" Ned will shake up the English boating men will astonish the world or I am mistaken. After his tour in England he will in all likelihood have a match with the Gandauer Bros., of Orilla. Their backer Mr. R. Russell of Orilla seems to think because they have beaten Elliott and McKen, and Hanlan and Adair that they are invincible. I think before the season of 1879 closes he will find out his mistake.

Football is all the rage. On Saturday next the Argonauts of Toronto play the Hamilton Football Club (Rugby Union Rules) on the Toronto cricket ground.

SANKEY.

The American railway track is still about two hours drive from us. Three wagon loads of passengers left here yesterday for the track, distant nine miles.

#### Manitoba Railway Interests.

The Free Press thus views the effect the change of Ministry at Ottawa will have upon what is justly regarded as Manitoba's principal interest.

"In a recent issue it was, we think, logically inferred that a change of administration at Ottawa would probably delay the time when Manitoba would be afforded railway facilities—at least by the Dominion. We need not say that time is a very important consideration in this connection. Settlers in the interior and more remote sections of the Province feel—and for good reason too—that they have already waited for railways just about as long as they can. In the present state of affairs it is but little advantage to them to raise more grain than is required for their own home purposes; for, as has been repeatedly presented in these columns, expecting in the country in the vicinity of the Red River, grain cannot be cultivated and marketed at a profit. This is so because of the want of transportation facilities—railways. The localities most needing railways immediately are those west of the Red River and north and south of the Assiniboine, respectively. Two roads, at least, are requisite. From the colonization railway policy of the late Government, brought before Parliament last session, we had great expectations; and had that party been continued in power we are ever so confident that at an early day we should have seen local railways stimulated into construction by this policy. But, not only have the pro-

Lachrymal Glands. Film, and Weakness of the Vision from any cause.

THE AMERICAN EYE-SALVE is presented to the public with the assurance of its efficiency as a curative of most diseases of the eye, acute or chronic inflammation, whether induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a decreased state of the tissues constituting that organ. lors of that policy passed from power, their successors declared against the fundamental principle of that policy—ing local railways in this Province him any reasonable period. We shall before have to fall back on our own sources."

**An American Recommendation.**  
It is not often that we see the Americans lauding Canada above their country as an advantageous field for migration. The following from the *Chicago News* will therefore be appreciated: "The great advantage of railway connection will be apparent when from present mode of communication. When connection is completed an area nearly 800,000 square miles of the most fertile soil on the continent will be open to settlement and trade with our most western commercial centres. The enormous yield of cereals produced in this region, as yet so sparsely settled, is bounding, even to Kansas and Minnesota farmers. The average yield of wheat is from thirty to forty bushels to the acre, and will weigh sixty-eight pounds to the bushel. Cases are known of a yield of sixty bushels of spring wheat to the acre, and even seventy-five bushels have been produced from one bushel sown. Oats and barley are produced in like proportion, and all varieties of beet roots and grasses yield immensely and attain the greatest perfection. During the past season, with its disadvantages of access, the migration into this favored region is estimated at over 12,000 well-to-do migrants, principally farmers from the province of Ontario, while with the increased facilities of access for the coming year, the immigration from Canada to Great Britain will probably quadruple that amount. \* \* \* Within the next decade we shall probably see a population of over 500,000 people occupied in the agricultural development of an enormously fertile region, and producing a grain crop equal to that of the State of Minnesota at present."

**Easy Payments in the North West.**  
The *Saskatchewan Herald* of the 23rd September, says: "The Lieutenant Governor returned to Battleford on Wednesday evening last from his visit to Rielton, Duck Lake, and Prince Albert. He held satisfactory consultations with the Indian chiefs of the former and lat-places respecting the location of their reserves. The chiefs of Duck Lake, however, were indisposed to discuss the boundaries of their reserves until some demand, not included in the treaty, was acceded to. These His Honor did not grant, and the question of losing their reserves had, for the present, stand in abeyance. Indeed, one of the chiefs called 'The Beardy,' who, as a medicine man has many superstitious notions, refused with a few of his band to accept the year's annuity. The other chiefs, however, and the majority of the Beardy band, took their money."

**MORE VALUABLE THAN GOLD.**  
ARUNICA AND OIL LINIMENT is not the best but the cheapest for external use. Not offensive, neither stains nor irritates. It is the most penetrating liniment ever put in title, consequently, reduces inflammation, cures the soreness and effects a cure at once. Once tried, always used.  
Price 25 and 30 cents.

**POSITIVELY A PREVENTATIVE.**—It is a well-known fact that Consumption is an hereditary disease. Nevertheless, probably three-fourths of the cases that prove fatal are brought on by a neglected cough. Hundreds of lives might be saved yearly by the timely use of *Wm. B. BAXTER'S ELIXIR*. It is a sure and natural remedy, and can always be relied upon. In the last stages of consumption it will give great relief, and may be taken advantage of with Cod Liver Oil.

**HEALTH IS MORE VALUABLE THAN WEALTH** is the exclamation of the invader. In using any remedy for the restoration of health, it is a duty in ourselves to use those that stand the test of trial and have never been denuded, but always spoken of in terms of the best praise by every one that has ever used it. **BAXTER'S MANDRAKE BITTERS** are disorders of the Liver, such as Jaundice, Headache, Bilious Colic, Dysentery, Diarrhoea, can be used with a guarantee of perfect

## TO CONSUMPTIVES.

The advertiser, a retired physician, having providentially discovered, while a Medical Missionary in Southern Asia, a very simple vegetable remedy for the speedy and permanent cure of Consumption, Asthma, Bronchitis, Catarrh, and all throat and lung affections, of a positive and radical specific for Nervous Debility, Premature Decay, and all Nervous Complaints, feels it his duty to make it known to his suffering fellows. Actuated by this motive, he will cheerfully send (free of charge) to all who desire it, the recipe for preparing, and full directions for successfully using, this providentially discovered remedy. Those who wish to avail themselves of the benefits of this discovery without cost, can do so by return mail by addressing, with stamp,  
DR. CHARLES P. MARSHALL,  
No. 8 Niagara Street,  
33 BUFFALO, N. Y.

INVALIDS, do you wish to gather flesh, to acquire an appetite, to enjoy a regular habit of body, to obtain refreshing sleep to feel and know that every fibre and tissue of your system is being braced and renovated? If so commence at once and use the Quinine Wine prepared by Northrop and Lyman of Toronto, and in a short time you will feel the whole system invigorated and strengthened. It is a well-known fact that Quinine has been acknowledged by the medical faculty for many years as the best appetizer and tonic known. And for general debility, this combination will be found superior to all other preparations. And combined as it is with fine sherry wine and choice aromatics, it is made an agreeable and pleasant invigorator to the whole system. The properties of Quinine are a febrifuge tonic and antiperiodic. Small doses, frequently repeated, strengthen the pulse, increase muscular force, and invigorate the tone of the nervous system. The peculiar operation of this medicine in general debility and as an appetizer, has undergone long and close observation, and it is believed it will never fail, if properly and judiciously administered, unless other diseases predominate of a different character. Persons of weak constitutions may use it without the least difficulty, as it strengthens the stomach and digestive organs and seldom requires more than one or two bottles to effect a decided benefit, as it contains nothing injurious to the most delicate constitution. Remember to ask for the "Quinine Wine prepared by Northrop and Lyman, Toronto," and we are sure you will be satisfied that you have full value for your money.  
Sold by all Medicine Dealers.

**Lachrymal Glands, Film, and Weakness of the Vision from any cause.**

THE AMERICAN EYE-SALVE is presented to the public with the assurance of its efficacy as a curative of most diseases of the eye, acute or chronic inflammation, either induced by scrofulous origin or otherwise, weakness or defect of vision, diminished tone of the optic nerve, or a diseased state of the tissues constituting it or organ. Also, for all persons whose vision requires an incessant action of the eye, the salve will act as a charm in restoring a uniform, healthy action, where sickness, pain, and misery may have long threatened a fatal termination. It is the simplest, safe, and effectual remedy ever discovered. The materials of which it is made are pure, perfect, and costly, combined with elaborate care and exactness, in its application, being used external, and, of course, avoiding the pain and danger which necessarily attends the introduction of caustic minerals and eye-shes. RINGWORM and OLD CHRONIC EYES, of scrofulous origin, or resulting in whatever cause, yield to the AMERICAN EYE-SALVE. IT IS USED SUCCESSFULLY FOR PILLS. Its soothing effect is immediate, and a permanent cure requires but a few applications. The proprietors of "Dr. J. Pettit's American Eye-Salve," while making new and improved machinery for making a more perfect box for the eye-salve, have changed the Trade Mark on the cover so as to correspond with the Cut on the Wrapper, Advertisements. We call attention to this, as it might otherwise be regarded as counterfeiting.

**Read what the People say in regard to the Great Shoshonees Remedy and Pills.**

LEVI JONES, Markham, says: I had a severe attack of Bronchitis. I was so bad that I could hardly get my breath. I sought for a quick remedy, and seeing the Shoshonees Remedy so highly recommended, I procured a bottle, and am happy to say that, by the time it was sent, I was entirely well and have remained so, although I was much exposed through the winter in travelling.

REV. F. B. SPATTON, Demorestville, says: I have found your remedies particularly beneficial for Liver Complaint, Dyspepsia and Bronchial Affections, and would advise all similarly affected to give them a trial.

MRS. A. D. PIERCE, Waverly, N.Y., says: It affords me much pleasure to press my heartfelt gratitude for the benefit I have received from using the Great Shoshonees Remedy. I was sorely afflicted with dyspepsia and Disease of the Lungs. After having used six bottles, I have become hearty and well. I never knew a medicine to have such wonderful effects. I cannot speak too highly of its merits.

JOHN FINLAYSON, Athol, says: When swelling one of my feet got sore and broke out. I could not cure it and had return it to me. It became better, and returned much worse. I finally purchased a bottle of the Remedy and a box of Pills, and before they were half used I commenced to improve, and before they were finished my foot was completely cured. It is now seventeen months since, but have had no further attack. Price of the Remedy in pint bottles, \$1; Pills, 25 cents a box. Sold at all medicine dealers.

The Vendetta in Corsica.

(From the Correspondent of the London Standard.)

PARIS, Oct. 7.—In Corsica there are two sorts of vendettas; when it is the son who kills the murderer of his father, or the brother who avenges his brother or sister, the vendetta is direct; when, on the contrary, the feud is kept up by distant relations, the vendetta is indirect or transversal. The latter, however, is considered just as legitimate as the former; it is rigorously enforced by the customs of the country, and so long as there remains one member of the two contending families the field is open to reprisal. In an island where duelling did not exist till but recently, it is easy to conceive the number of persons that must have fallen victims to the vendetta. Filippini, one of the best historians of Corsica, estimates that in thirty years no fewer than 30,000 men have been sacrificed to the barbarous custom. Another writer calculates that from 1359 to 1715 as many as 300,000 vendetta murders were committed in Corsica. But these figures, it must be stated, are not based on any serious documents, and are probably very exaggerated. However, a report addressed by the Prefect to the Council General in 1852 stated that since 1821 nearly 5,000 assassinations arising from family quarrels were perpetrated in Corsica. The evil at that time was considered sufficiently serious to den and some extraordinary remedy. The vendetta was abolished in the island, and the only person allowed to shoot was Prince Pierre Bonaparte. But towards the end of the Second Empire this prohibition was repealed, and the vendetta broke out again with renewed force and barbarity. Unfortunately these family murderers are absolved and even encouraged by public opinion.

Vengeance is a feeling dear to the Corsicans, and everything contributes to inflame it. The popular songs are nearly all consecrated to the celebration of the exploits accomplished to punish an offence. If the man who falls leaves only a child in the cradle, it is the wife or sister who carefully preserves the blood-stained handkerchief or shot-riddled shirt to nerve the arm of the orphan twenty years later. Time does not efface hatreds, and revenge long waited for is only the sweeter to them. There is scarcely any family in Corsica that has not some sanguinary legend in its history, and it is transmitted from generation to generation like a sacred inheritance. The most crushing reproach one can offer to a Corsican is to have failed in the obligation imposed on him by a vendetta. This reproach has even a special name among the people; it is called the *rimbeccare*, or backing out, and in the Middle Ages the *rimbeccare* was forbidden by the law. According to the statute, anybody who backed out of a vendetta was first fined a heavy sum, and then, if he did not do his "duty" within a week, he was banished from the island for a twelve-month. In 1851 a new edict condemned the person guilty of a *rimbeccare* to have his tongue slit. But these laws were not often applied, for the simple reason that the Corsicans were too fond of their feuds to expose themselves to such punishments, which entailed everlasting disgrace and degradation in the eyes of the people. In some instances the most insignificant causes set families in arms against one another, and the quarrel often extended to villages.

Thus, for example, the village of Sartone was divided from 1815 to 1848 between the Rocca-Seras and the Ortolini. Houses remained loopholed for thirty years like veritable fortresses, and the inmates at times continued in a state of siege for months together. If perchance they left the door open one day, or showed themselves at the window, they were sure to fall before the deadly aim of the rival family lying in wait with powder and shot. No consideration whatever

age, which, it is to be hoped, will give way to the progress of civilization. But the first thing necessary to bring about a reform in the savage manners of the Corsicans is education, for nothing, perhaps, tends to keep up the vendetta so much as the state of ignorance in which the lower classes of the island are plunged.

A Heresy Doomed.

We have not been over-anxious about the wave of ruinous error which has passed over our land in the form of the protection mania. It has come too late in the day to accomplish the evil it might once have done. We have been hitherto free traders as a people, because the country from which we derive our origin has grasped the free trade doctrine with a tenacity proportioned to the experience which it cost. The people of the United States, probably partly because they hated English ideas, have been equally wedded to the protection theory. It was perhaps not to be wondered at that with no convictions formed out of our own experience there should be an overflow of American opinion into Canada, and that at a time of prolonged depression we should yield under pressure to the momentary conviction that our doctrine was the wrong one and their the right one. It is not, however, in one sense correct to say that protectionism is the doctrine of the American Republic, for although the people generally still hold to it as they do to the Declaration of Independence, their thinkers have given it up, and even the leading papers of what has always been the great protectionist party, have pronounced strongly against it. The same change for the better is spreading downwards among those most interested in the study of the question—the manufacturing classes themselves. The operatives have found that, however much high duties may seem to protect the profits of the manufacturer, they afford no protection to labor, and that they have resulted in largely replacing the native operative with unskilled, unpatriotic, and ignorant foreigners, who work cheaper and who vote against the interests and institutions of the country. Moreover, the very manufacturers who have always been the agitators for protection, and in whose interest all protection measures were enacted, are largely coming to the conclusion that they are not gainers by the process. A Montreal merchant recently visiting a manufacturer of woolen goods in the United States, asked him if he called himself a free-trader or a protectionist. The other laughed at the question, and said he had always been a protectionist. Our friend then asked him bluntly if protection had been of advantage to himself. "Well, no," he replied, "we are too much protected. We have five factories where there should be three, and no outlet for our over-supply. We are carrying on our business now only because all these villages are depending on it, but should things get any worse we must stop, and the people will be all thrown out of work." On the same journey this enquirer met an English manufacturer of the steel. His American acquaintances had asked him why he did not open works in the United States, and take advantage of the American tariff for the supply of his American customers. His reply was that he had found in the States many manufacturers already established, and none of them making money. Hard as times were in England, he had no ambition to exchange them for those in the United States. The stern logic of facts is thus rapidly teaching the Americans what they never would have learned from their neighbours. Their acknowledgments of error will necessarily be the death blow to protection in this country, if it is not destroyed sooner by the necessary failure of the Government to fulfil the wild promises which bore it into power. We can, therefore, see it the result with reasonable

ELECTRICITY!

THOMAS' EXCELSIOR ELECTRIC OIL.

WORTH TEN TIMES ITS WEIGHT IN GOLD—  
PAIN CANNOT STAY WHERE IT IS USED.

It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents worth has cured crick in the back, and the same quantity back of eight years' standing. It cures swollen neck, tumors, rheumatism, neuralgia, contraction of the muscles, stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cents worth has cured bad cases of chronic and bloody dysentery. One teaspoonful cures colic in 15 minutes. It will cure any case of piles it is possible to cure. Six or eight applications is warranted to cure any case of excoriated nipples or inflamed breast. For bruises, if applied often and bound up, there is never the slightest discoloration of the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils, warts, and corns, and wounds of every description on man or beast.

Beware of Imitations.—Ask for Dr. Thomas' Electric Oil. See that the signature of S. N. THOMAS is on the wrapper, and the names of Northrop and Lyman are blown in the bottle, and TAKE NO OTHER. Sold by all medicine dealers. Price 25 cts. NORTHROP & LYMAN N., Toronto, Ont.,

Mitchell's Belladonnas Improved

Rubber Porous Plaster

There never has been a time when so many different diseases have been outward application as the present. It dispensed that over half of the entire population the globe resort to the use of plasters.

The principal ingredients used in these Plasters are Gum Olibanum—or better, the Frankincense of the Bible—Rubber gundy Pitch, which, when scientifically pounded, is full of electricity, and when ed with the pure medicinal gums, is for one of the greatest healing mediums ever known to the human race.

They are acknowledged by all who have tried them to be not quicker than any other Plaster ever before tried, and that one of those who will do more real service than a hundred ordinary kinds. All other plasters are slow, and require to be worn continually a cure; but with these it is entirely different ones applied the patient will find relief.

They possess all the soothing, warming, porting and strengthening qualities of Plasters. Many who have been relieved of RHEUMATISM, NEURALGIA, and other pains in the KIDNEYS, BREAST and believe it is solely due to the qualities which the Porous Plasters contain which is imparted to the system, thus, them to a healthy condition.

They are very soft and pliable, still, and a sure cure for WEAK PAINS IN THE SIDE AND BREAST, invaluable to those who have a COLD standing, and often prevents CONSUMPTION. Some even tell us they believe they were cured by the use of them of them of seated Consumption.

Prepared by GEO. E. MITCHELL, S.S. Sold by all Druggists.

The Great Female Remedy

JOB MOSES' PILLS

This invaluable medicine is unfailingly cure of all those painful and dangerous disorders to which the female constitution is liable. It invigorates the debilitated and by regulating and strengthening the fortifies the youthful constitution for ties of life, and when taken in middle age, proves a real blessing, and on the old, a most refreshing system. It should be taken two or three weeks previous to confinement to be derived are incalculable fortify the constitution, lessen the suffering labor, prevent weakness of the organs, and the mother may then find her due comfort to herself and child.

In all cases of Nervous and spinal Pain in the Back and Limbs, Heaviness on slight exertion, Palpitation of the Heart, nervousness, Hysterics, Sick Headaches, and all the painful diseases of the female system, these PILLS should be taken when all other means have failed, though a powerful remedy, they do not contain calomel, antimony, or anything hurtful to the constitution.

Job Moses, NEW YORK, SOLE PREPARED 1.00 and 12) cents for postage, one Northrop & Lyman, Toronto, Ont. For the Dominion, will insure a bottle or over 30 pills, by return mail. Sold in all parts by all Druggists, Mitchell & Co., Toronto, Ont.

orphan twenty years later. Time does not efface hatreds, and revenge long waited for is only the sweeter to them. There is scarcely any family in Corsica that has not some sanguinary legend in its history, and it is transmitted from generation to generation like a sacred inheritance. The most crushing reproach one can offer to a Corsican is to have failed in the obligation imposed on him by a vendetta. This reproach has even a special name among the people; it is called the *rimbeccare*, or backing out, and in the Middle Ages the *rimbeccare* was forbidden by the law. According to the statute, anybody who backed out of a vendetta was first fined a heavy sum, and then, if he did not do his "duty" within a week, he was banished from the island for a twelve-month. In 1851 a new edict condemned the person guilty of a *rimbeccare* to have his tongue slit. But these laws were not often applied, for the simple reason that the Corsicans were too fond of their feuds to expose themselves to such punishments, which obtained everlasting disgrace and degradation in the eyes of the people. In some instances the most insignificant causes set families in arms against one another, and the quarrel often extended to villages.

Thus, for example, the village of Sartone was divided from 1815 to 1848 between the Rocca-Seras and the Ortoli. Houses remained loop-holed for thirty years like veritable fortresses, and the inmates at times continued in a state of siege for months together. If perchance they left the door open one day, or showed themselves at the window, they were sure to fall before the deadly aim of the rival family lying in wait with powder and shot. No consideration whatever, will prevent the vendettist from carrying out his fell purpose. Not very long ago, a priest, who never went to church without an armed gun on his shoulder, and preceded by his secretary, also armed, was assassinated in the middle of the mass by his enemy, who had hidden himself in the confessional-box. The greatest man Corsica produced in the eighteenth century, the illustrious Paoli, always studied in a room the windows of which were lined with cork as a protection from balls without. Attempts have been made at all times to arrange these sanguinary feuds. The delicate task was placed in the hands of men designated by the name of *parolanti*, a kind of voluntary magistrate, who conciliated parties and imposed peace on them by oath. Their decisions, when agreed to, were always scrupulously respected; but the negotiations more often ended in war than in peace. However, notable examples may be quoted in which the desire for vengeance gave way to the more elevated sentiments of patriotism and religion. In the month of January, 1756, Paoli was surprised at Bozio by Emmanuel Matro, one of his most formidable enemies. He had only just time enough to take refuge in a convent, where he was soon besieged. Paoli, who was not a warrior, began to speak of capitulation, when unexpected assistance arrived in the person of Thomas Carnoni, the son of one of his enemies, whose mother herself sent him to the combat; she sacrificed her hatred to her country.

The story of Marianna Pozzo di Borgo is a still more striking anecdote. In the midst of the carnival festivities her son fell mortally wounded. The assassin, Andsea Romanetti, fled into the thickets. Marianna dressed herself up in masculine attire, and followed by a few friends, went in pursuit of the murderer. Tracked from right to left, Romanetti was forced to return home, but his house was soon besieged in such a way that he saw it was no use holding out. So he offered to surrender himself on the condition of being allowed to confess. Marianna consented, and accompanied him to the residence of the priest. During the confession of Romanetti she knelt down and united her prayers to those of her enemy. The murderer was then led outside the village and tied to a tree. The muskets were raised, the word of command to fire was about to

been the agitators for protection, and in whose interest all protection measures were enacted, are largely coming to the conclusion that they are not gainers by the process. A Montreal merchant recently visiting a manufacturer of woolen goods in the United States, asked him if he called himself a free-trader or a protectionist. The other laughed at the question, and said he had always been a protectionist. His friend then asked him bluntly if protection had been of advantage to himself. "Well, no," he replied, "we are too much protected. We have five factories where there should be three, and no outlet for our over-supply. We are carrying on our business now only because all these villages are depending on it, but should things get any worse we must stop, and the people will be all thrown out of work." On the same journey this engineer met an English manufacturer of the steel. His American acquaintances had asked him why he did not open works in the United States, and take advantage of the American tariff for the supply of his American customers. His reply was that he had found in the States many manufacturers already established, and none of them making money. Hard as times were in England, he had no ambition to exchange them for those in the United States. The stern logic of facts is thus rapidly teaching the Americans what they never would have learned from their neighbours. Their acknowledgments of error will necessarily be the death blow to protection in this country, if it is not destroyed sooner by the necessary failure of the Government to fulfil the wild promises which bore it into power. We can, therefore, await the result with reasonable equanimity. — *Montreal Witness*.

#### Stolen Church Ornaments.

SOME OF THE BOOTY OF THE OLD CHAMBERS GANG.

Quebec, Oct. 31.—Some days ago a farmer named Vachon, of the parish of Broughton, county of Beauce, turned up in a field, while plowing, a silver candle-stick and other church ornaments, which were stolen from the church of the Congregationists, in this city, February, 1835. The robbery was committed by a gang commanded by one Chambers, a lumberman, of St. Rochs. This gang, which consisted of twenty persons, began operation in 1832, and defied detection for three years. Chambers was a man of means, carrying on a good business, and his respectability gave him admission into the houses of the best people in Quebec. He and his men murdered two young Englishmen named Griffith on Goose Island, Captain Surcouf, keeper of the light-house at Point Platon, and Mrs. Montgomery, a wealthy, old lady, who lived on St. Helen street. In 1824 Chambers visited the cure of Beauport; Church was robbed of its sacred vessels. Chambers swore he saw the bundle, an old man named Pitou, carrying off the goods, and the bundle was sent to prison. On the 9th of February, 1835, the Church of the Congregationists on the Esplanade Hill was robbed of the chalice, crucifixes, images, and candelabre. Waterworth, a member of the gang, became frightened, and turned King's evidence on his associates. Some of the property was found near Cape Rouge, but, although the informer said the rest of it was buried in Broughton's parish, it could not be found. The articles found the other day, however, are known to be the missing ones. Waterworth made a clean breast of all the crimes committed by the gang, and Chambers and nineteen accomplices were convicted and transported for life. They were sent to the British penal settlement in Van Dieman's Land, and on the voyage there in the brig *Ceres* they mutinied. Two of them were killed and the others ended their days in the colony. — *New York Tribune*.

**HEAL**

The story of Marianna Pozzo di Borgo is a still more striking instance. In the midst of the carnival festivities her son fell mortally wounded. The assassin, Andsea Romanetti, fled into the thickets. Marianna dressed herself up in masculine attire, and followed by a few friends, went in pursuit of the murderer. Tracked from right to left, Romanetti was forced to return home, but his house was soon bereft in such a way that he saw it was no use holding out. So he offered to surrender himself on the condition of being allowed to confess. Marianna consented, and accompanied him to the residence of the priest. During the confession of Romanetti she knelt down and united her prayers to those of her enemy. The murderer was then led outside the village and tied to a tree. The muskets were raised, the word of command to fire was about to be given, when Marianna herself intervened, unbound the ropes, and pardoned him. This event took place in 1694, and it the people still talk of it it is because it is so contrary to their traditions and usages. Whence arose the vendetta? The Corsicans throw the responsibility of it on the shoulders of the Genoese. Justice, they say, was then so uncertain that the victims were forced to make up for the insufficiency of the magistrates by taking the law into their own hands. But the explanation is more specious than just. The love of vengeance is natural to the Corsican, and he obeys a passion fostered by old prejudices. The vendetta defied even the efforts of Paoli, who established the most rigorous and impartial justice everywhere throughout the island. The only excuse the Corsican can make is that the detestable custom is also practiced by several peoples of Eastern Europe, such as the Greeks, and Servians, the Montenegrins, and that it is to be found in all countries where society is badly organized, and where family life, on the contrary, is strongly constituted. Such for a long time was the situation of Corsica. No authority was powerful enough to enforce respect for the law; everything was settled by brute force, and nothing remained intact but families and clans. Families in Corsica are still united by the strongest ties. Every member of a family is bound to assist and protect, even by arms, the other members. The number of men in a family gives it an importance far greater than the amount of wealth or property. A young man recently had to decide between the choice of two girls for a wife; the first was rich, and the second poor, but he chose the latter "because there were 17 muskets (i. e. men) in her family." These are the customs of another

What a wonderful discovery! Dr. J. C. Davis' Pain-Killer! It not only cures the ills of the human family, but is also the sure remedy for horses with colic. It has never been known to fail in a cure of the worst cases: and for strains, galls, &c., it never fails—try it. Sold by druggists and company each bottle.

Equal to any Institution in Canada, or the United States. Its several departments are conducted by thoroughly competent men who teach that which they have learned by actual business experience, and therefore practically understand.

THE PUBLICATIONS OF THE COLLEGE:

The "Canadian Accountant," "Joint Stock Company Book Keeping," "Beatty's Guide to Elemen Writing, etc., have obtained a National reputation, and are the productions of the principals of the College, who are daily engaged, together with their staff of teachers, in the Class and Lecture Rooms, College Bank, and Merchants Emporium with the Students.

THE COURSE IS SHORT,

because the teaching is thorough and practical, and no pains are spared to give to each student individually, as well as to the various classes, the personal attention of the teachers.

GOOD BOARD

can be obtained in Belleville at a lower rate than in any other place having a Business College in Canada or the United States.

The College Journal, containing full information respecting terms, nature of course, etc., and specimens of penmanship, sent free on application.

Address, **S. G. BEATTY & Co.,**  
 BELLEVILLE, ONTARIO

Belleville, September 1877.

19-6v

**Dizziness of Vision, Premature Old Age,** and many other diseases that lead to **Insanity or Consumption** and a **Premature Grave**, all of which as a rule are first caused by deviating from the path of Nature and overindulgence.

The Specific Medicine is the result of a life study and many years of experience in treating these special diseases. Pamphlet free by mail.

The Specific Medicine is sold by all Druggists at \$1 per package, or six packages for \$5, or will be sent by mail on receipt of the money by addressing,

**WILLIAM GRAY & Co.,**  
Windsor, Ont.

**ELECTRICITY!**

**THOMAS' EXCELSIOR ELECTRIC OIL.**

WORTH TEN TIMES ITS WEIGHT IN GOLD—  
PAIN CANNOT STAY WHERE IT IS USED.

IT is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured Bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma, and croup. Fifty cents worth has cured crick in the back, and the same quantity lumb back of eight years' standing. It cures swelled neck, tumors, rheumatism, neuralgia, contraction of the muscles, stiff joints, spinal difficulties, and pain and soreness in any part, no matter where it may be, nor from what cause it may arise, it always does you good. Twenty-five cent worth has cured bad cases of chronic and bloody dysentery. One teaspoonful cures colic in 15 minutes. It will cure any case of piles it is possible to cure. Six or eight applications is warranted to cure any case of excoriated nipples or inflamed breast. For bruises, if applied often and bound up, there is never the slightest discoloration of the skin. It stops the pain of a burn as soon as applied. Cures frosted feet, boils, warts, and corns, and wounds of every description on man or beast.

**Beware of Imitations.**—ask for Dr. Thomas Electric Oil. See that the signature of S. N. THOMAS is on the wrapper, and the names of Northrop and Lyman are blown in the bottle, and TAKE NO OTHER. Sold by all medicine dealers. Price 25 cts. NORTHROP & LYMAN N. Toronto, Ont., Proprietors for the Dominion.

Norm.—Electric—Selected and Electrized.

Awarded the Highest Medal at Vienna.

**Consumption Cured.**

AN OLD PHYSICIAN, retired from active practice, having had placed in his hands by an East India Missionary a certain and effectual Remedy for the speedy and permanent cure of  
**CONSUMPTION ASTHMA BRONCHITIS CATARRH**  
and all Throat and Lung Affections; also a Positive and Radical Cure for Nervous Debility and all Nervous Disorders, after having thoroughly tested the various powerful powers in thousands of cases, feels it his duty to make it known to his suffering fellow-men. Assisted by this positive and a conscientious desire to relieve human suffering, he will send FREE OF CHARGE, to all who desire it, his recipe, with full directions for preparing and using the same. Sent by return mail by adding this stamp, enclosing this paper.

**DR. C. STEVENS.**  
Box 65, Belleville, Ont.

**The Great Female Remedy.**  
**JOB MOSES' PILLS.**

This invaluable medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It invigorates the debilitated and delicate; and by regulating and strengthening the system, fortifies the youthful constitution for the duties of life, and when taken in middle or old age, proves a real blessing, and on the approach of old birth, these Pills should be used for two or three weeks previous to confinement; the benefits to be derived are incalculable; they fortify the constitution, lessen the suffering during labor, prevent weakness of the organs, and enable the mother to perform her duties with comfort to herself and child.

In all cases of Nervous and spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of spirits, Hysterics, Sick Headaches, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed; and, although a powerful remedy, do not contain iron, calomel, antimony, or anything hurtful to the constitution.

Full directions in the pamphlet around each package.

**JOB MOSES, NEW YORK, SOLE PROPRIETOR.**  
100 and 125 cents for postage, enclosed to Northrop & Lyman, Toronto, Ont. general agents for the Dominion, will insure a bottle containing over 50 pills, by return mail.

Sold in Napanea by all Druggists, Mill Point, by W. G. Egan, Tamworth J. Aylsworth, and all medicine dealers.

**WANTED.**

We want reliable, energetic canvassing agents in every town in the Dominion for the new 'Illustrated History of the Dominion of Canada.' This work is truly magnificent, containing over 2,000 double column quarto pages, and over 300 superb full page engravings. The work is published in Parts, on a plan which insures its welcome to every English reading family. To energetic young men and ladies, who are willing to work, we will guarantee a permanent position for two years, and GOOD PAY. Don't fail write! to for our private terms, sample pages, etc. This is a grand opportunity for school teachers to make more than double their salaries without interfering with their professional duties. The works being manufactured at a cost of over \$20,000 for the literary, artistic and mechanical work of producing the plates by the old well known, reliable Lovell Printing and Publishing Co., of Montreal. All letters from agents must be addressed to the Publishers General agents as follows:
